Product and safety information

Because control functions may vary depending on the model of your device and application. Some models may not support all functions. Since devices with Bluetooth® technology can communicate using radio waves, they do not need to be in direct line-of-sight. Bluetooth® devices may experience interference from other electronic devices. The use of your device may be subject to interference from obstructions such as walls or other electronic devices.

• **Maximum Radio Frequency Power: <40 dBm**

For your safety

• **Airplane mode** is not available. It may be dangerous or against local laws to switch on. For further info, read the complete user guide.

• **Switch off the device** when a Bluetooth headset is not in use or when it may cause interference with other electronic devices or medical equipment.

• **Interference** may be caused by interference, which could affect performance.

• **Batteries, chargers, and other accessories** Use on batteries, chargers, and other accessories approved by HMD Global. Do not use on other batteries, chargers, or accessories.

• **Protect your hearing** To prevent possible hearing damage, do not listen at high volume levels for long periods.

• **Hearing** When you use the headset, your ability to hear outside sounds may be affected. Turn down the volume if you feel any discomfort.

• **Small parts** Risk of suffocation.

• **Your device and its accessories** are not toys. They may contain small parts. Keep them out of the reach of small children.

Take care of your device

- Handle your device with care. The following suggestions help you keep your device operational.
- Remove the device from its case, and any filters or accessories before you clean the device.
- Do not drop or store the device in dusty or dirty areas.
- Do not expose the device to extreme temperatures. Extreme temperatures may damage the device or battery.
- Do not expose the device to extreme temperatures. Extreme device wear to its normal temperature, moisture can form inside the device and damage it.
- Do not open the device other than as instructed in the user guide.
- Do not use the device in areas where there is a high concentration of static electricity.
- Only use a soft, dry cloth to clean the surface of the device.
- Do not point the device. Point can prevent proper operation.
- The earbuds are treated with water protection (IPX4), which protects the device from splashing water. Water protection does not protect the device from immersion.

Recycle

Recycle your used electronic products, batteries, and packaging material. Use designated collection points. This way you help prevent unnecessary waste disposal and promote the recycling of materials. Electronic and electrical products contain a lot of valuable materials that can be recycled. Please do not dispose of electronic waste in regular household waste. Instead, take the product to a collection point for recycling.

Cross-cut wheel bin symbol

The cross-cut wheel bin symbol on your products and batteries are packaging indicates that these products and batteries should not be disposed of with your household waste. Instead, take them to a collection point for recycling. For more information, please contact your local waste authority.

Battery info

Only use an approved, rechargeable battery. Do not attempt to remove the battery, as it may damage the device. The battery can be charged and discharged hundreds of times, but it will eventually wear out. Charging time can vary depending on device usage.

Battery safety

After using a fully charged battery, do not leave it charge over time, always keep the battery charged between 10% and 80%. Do not leave the battery in a hot environment. The capacity and lifetime of the battery, a device may temporarily stop working if the battery is too cold. Charge of batteries is the as they may explode. Only local regulations, Recyclers when appropriate, can advise on the disposal of batteries. If you are in doubt about the disposal of batteries, contact your local authority or a service centre or your local shop before continuing to use it. Never use a damaged battery. Do not charge your device during a lightning storm.

Implanted medical devices

To avoid potential interference, wait 10 centimeters (4 inches) between your medical device and the implanted medical device. Persons who have such devices should:

- Always keep the wireless device more than 15.3 centimeters (6 inches) from the medical device.
- Do not carry the wireless device in a breast pocket.
- Switch the wireless device off if there is any reason to suspect that it may interfere with the medical device.
- Follow the manufacturer's directions for the implanted medical device.

If you have any questions about using your wireless device with an implanted medical device, consult your health care provider.

Copyrights and other notices

The availability of products, features, apps, and services may vary by region, for more info, please contact your local service provider. This device may contain new software, updates, including software subject to export laws and regulations from the US and other countries. Division of the software into separate components is not intended to limit the use of the software in a stand-alone environment. This equipment generates noise and can radiate radio frequency energy. If not properly installed or used, it may cause harmful interference with other electronic communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Increase or decrease the separation between the equipment and receiver.
- Change the orientation of the antenna connected to the equipment or the receiver.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This device contains license-exempt transmitter(s) (hereinafter referred to as "UE") that comply with the technical regulations of the Council Directive 2014/53/EU on the approximation of the laws of the Member States relating to radio equipment and telecommunication terminal equipment and to the reduction of certain risks associated with their use.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

L'importateur/Importeur exempt de licence contient des appareils exempt de licence aux termes de la Directive 2014/53/UE sur l'harmonisation des législations des États membres en matière de équipements radioélectriques et de terminaux de télécommunications et pour réduire les risques associés à leur utilisation.

(1) cet appareil ne doit pas causer d'interférences et (2) cet appareil doit accepter toute interférence, y compris celles qui peuvent entraîner un fonctionnement indésirable de l'appareil.
