Columbia, MD 21046

Date: 2021-01-25

SUBJECT: FCC Class II Permissive change for FCC ID: [2ALZB-D14MED](#).

To Whom It May Concern:

We, SECO S.p.A. would like to request a Class II Permissive Change for the FCC ID: [PD99260NG](#) is to add a host: [Gateway \(Brand: SECO\)](#) to the certified module which was originally granted on [07/24/2017](#) under FCC ID: [PD99260NG](#)

Since the RF function remain the same with the original application , add the host uses an antenna of the same type but of lower gain. It is acceptable for C2PC change application.

The module mentioned above has been approved and is electronically and mechanically identical to the original instruction and requirements. Therefore, we, SECO S.p.A. take the responsibility to ensure each module complied with all requirements after integration in the host.

Also, please note that SAR testing is performed to demonstrate compliances since the certified module has been installed to the host with the distance less than 20cm while using.

If you have any questions regarding this application, please feel free to contact me.

Sincerely,

---

**Alessandro Pali / Senior Manager**
