26 March 2018

To Whom it May Concern:

We, Chanje Energy, Inc. declare that the Equipment Under Test (FCC ID: 2AM7K-NS10100) does not utilize Ad-Hoc Mode functionality on “Non-US/Canada frequencies”.

Additionally, the frequency selection feature is disabled by firmware for devices marketed to the US and/or Canada. For DTS part of this device, only channels 1-11 will be used in North America. Country code selection is also disabled.

Should you have any questions regarding this matter, please feel free to contact me directly.

Best regards,

**Austin Hausmann**  
— VP R&D and Product
