RE: CONFIDENTIALITY REQUEST FOR RAVEN+ (MODEL#: RVC0A0, FCC ID: 2AN9Y-RVC0A0)

To Whom It May Concern:

This letter serves as an official request for confidentiality under sections 0.457 and 0.459 of CFR 47. We have requested that the Block Diagrams, Schematics, Parts List, Technical/Operational Description and Internal Photos required to be submitted with this application be permanently withheld from public review.

We request that the above documents be also held in permanent confidentiality due to proprietary information that could never get into the possession of the competition. This new generation of the product contains new ground breaking patent pending technology new to this category of product. The unit has no user serviceable parts and is designed not to be opened or modified by the user. A specialized tool/fixture is required to open the unit and can only be serviced by an authorized service professional technician. Access to repair / servicing instructions requires an NDA. A generic copy of the Raven Connected NDA is attached.

Sales of these devices are typically through channel partners which requires an NDA to be signed.

Please contact me if there is any information you may need.

Sincerely,

A handwritten signature in black ink that reads "Dan Crawford".

Dan Crawford, Director of R&D
