- Don' t use damaged or weeping battery;
- Keep the battery dry and out of Children' s reach;
- Properly dispose of failure batteries in accordance with local regulations.
- Although your device is quite sturdy, it is a complex piece of equipment and can be broken. Avoid dropping,hitting or bending, or sitting on it.
- Make sure the charger/USB port, microSD card/SIM card slot covers are properly seated, with no foreign objects obstructing the seals.
- Do not use the charger/USB port for charging, data transmission, etc. until the phone is completely dry.
- Do not store the device under any circumstance containing electronic erosive material.
- Avoid to pull the device up by holding the antenna or accessories.
- Please power off and unload the battery before cleaning the device.
- Using dry and clean lint-free cloth or hairbrush to keep the device and charger docking port clean.
- Avoid to use any chemical agent including detergent, alcohol, aerosol spray or oil preparations as cleaning solution.
- Dry your device completely after cleaning and before using it again.

FCC Warning

15.19 Labeling requirements.
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.

15.21 Information to user.
Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

15.105 Information to user.
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-- Reorient or relocate the receiving antenna.
-- Increase the separation between the equipment and receiver.
-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-- Consult the dealer or an experienced radio/TV technician for help.

Specific Absorption Rate (SAR) information:
This product meets the government's requirements for exposure to radio waves. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons regardless of age or health.

FCC RF Exposure Information and Statement The SAR limit of USA (FCC) is 1.6 W/kg averaged over one gram of tissue. This device was tested for typical body-worn operations with the back of the handset kept 10mm from the body. To maintain compliance with FCC RF exposure requirements, use accessories that maintain a 10mm separation distance between the user's body and the back of the handset. The use of belt clips, holsters and similar accessories should not contain metallic components in its assembly. The use of accessories that do not satisfy these requirements may not comply with FCC RF exposure requirements, and should be avoided.
