

WRT8002

Remote Control

With the included remote control, you can record video clips or take still pictures from a distance up to 32 feet. First, turn the camera on with the **Power Button** 9 .

To record videos, press the **Video Button** 23 on the remote control. The left LED light on the Remote will blink one time. The camera will give 3 audio signals and

start recording. To stop the recording, press the **Video Button** 23 again. To take still pictures, press the **Photo button** 22. The right LED light on the Remote will blink one time. The camera will immediately take a still picture.

Please note, you cannot turn the camera on or off with the remote control. The remote control is not designed to be used under water!

If you don't have a connection from the remote control to the camera, please change the battery. Unscrew the lid from the back cover of the remote and change the battery.

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
