PRODUCT INTRODUCTION

TECHNICAL SPECIFICATIONS

Input: DC 5V/3A, 9V/3A
Wireless Charger Output #1 (Phone): 5W, 7.5W, 10W, 15W
Wireless Charger Output #2 (Apple Watch®): 2.5W
Wireless Charger Output #3 (AirPods®): 5W
Total Output: 18W

CHARGING

- Connect the Wireless Charging Station to a USB power source with a minimum output rating of 9V/2A (18W)* (not included) using the included USB-C to USB-C cable.
- Your devices will automatically begin charging when placed on the Wireless Charger.
- For optimal charging, place your devices in the center of the wireless charging areas.

FAST CHARGING

- The Wireless Charger Station supports outputs of up to 15W for compatible phones when paired with a 9V/3A (27W) USB adapter.

TROUBLESHOOTIN

- **No power:** Ensure the Charging Station is plugged into a power source.
- **Device isn't charging (wireless):** Verify that your device supports wireless charging and is centered on the charging pad.

PRECAUTIONS:

- **Medical Implants:**
Maintain a minimum distance of 20 cm between the powered Wireless Charge Station and any medical implants that may be affected by a magnetic field, such as pacemakers.
- **Do not immerse in liquid.**
Do not place magnets or magnetically sensitive devices, like credit cards, on the charging pad.
- **Avoid placing metal or magnetic objects near the Wireless Charging Station to prevent damage.**

*Using a USB adapter with a lower power output will not support charging multiple devices at the same time and will cause the charging speed to be reduced.

PREPARING TO CHARGE

- The 3-in-1 Wireless Charging Station charges iPhone®, AirPods® with wireless charging case, Apple Watch® and most wireless charging devices.

FCC NOTICE

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception,

which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20 cm between the radiator and your body.

TECHNICAL SUPPORT

Please do not attempt to fix the product by yourself. If you are experiencing any problems with the product, please do not return it to the store you bought it from. You can contact our technical support representatives and they will assist you with any questions you might have. For assistance operating your product, please consult the User's Manual first, then feel free to contact Mercury Innovations technical support:
