

**The Lullabuddy™ Speaker is Bluetooth® enabled.
To pair with another Bluetooth® device, follow these steps:**

1. Turn the Lullabuddy speaker power switch on.
2. Press & hold the center Play/Pause button until the blue light flashes.
3. On your mobile device, open Bluetooth®, find & select Lullabuddy on the list of devices available to pair.
4. Start music on your mobile device & it will play through the Lullabuddy speaker.
5. To stop streaming music, simply press & hold the Play/Pause button to de-activate Bluetooth®.
6. If Lullabuddy doesn't appear on your mobile device, try turning Bluetooth® off & back on again. Then turn Lullabuddy off & back on again. Now try the Bluetooth® pairing sequence again.
7. Once you have paired a device to the Lullabuddy you should not have to pair it again.
8. If Lullabuddy still doesn't show up on your mobile device list, make sure it is not paired with another device that is nearby.

Specifications

FCC STATEMENT :

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

RF warning statement:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
