4. Basic specifications

Keyboard type : Mechanical keyboard	Function : FN combination function key
Switch : Kailh Choc Switch	Connector : Type-C & Bluetooth
Report Rate : 1000HZ	Voltage / Current : DC 5V / 500mA
Switch life : 70 Million Actuations	Handing force : 55±10gf
Keypad : 108 key/Anti-ghosting	Cable Length : 1.8m Φ4.0mm braided USB
Size : 435 x 140 x 30 mm	Weight : 660g

5. System Compatibility

Win2000、Win ME、Vista、Android、linux、Windows XP/ 7/8/10 / Mac OS

6. The name and content of the hazardous substance in the product

Component name	Hazardous substances					
	(Pb)	(Hg)	(Cd)	(Cr(VI))	(PBB)	(PBDE)
keyboard body	×	○	○	○	○	○
Metal case	○	○	○	○	○	○
Plastic keys	○	○	○	○	○	○

This form has been prepared in accordance with the requirements of SJ/T 11364.
○ : Indicates that the content of the hazardous substance in all homogeneous materials of the component is below the limit specified in GB/T 26572.
X : Indicates that the hazardous substance is contained in at least one homogeneous material of the component.The quantity exceeds the limit specified in GB/T 26572.

7. Warning

If any liquid enters the product, please immediately disconnect from the computer and remove the product. Continued use may cause fire or electric shock, please contact the agent for inspection and maintenance.

Check the product shell regularly for any damage, maintenance operations are outside the scope of product compliance requirements.

Disassembly, replacement of parts, modification or modification without express approval will cause the user to lose the right of operating the equipment and the warranty failure.

FCC Statement

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1)This device may not cause harmful interference.
- (2)This device must accept any interference received, including interference that may cause undesired operation.

2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note:This equipment has been tested and found to comply with the limits for a class B digital device,pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and,if not installed and used in accordance with the instructions,may cause harmful interference to radio communications. However,there is no guarantee that interference will not accor in a particular installation.if this equipmient does cause harmful interference to radio or television reception,which can be determined by turning the equipment off and on,the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connectec.
 - Consult the dealer or an experienced radio/TV technician for help.
- The device has been evaluated to meet general RF exposure requirement.**
The devicecan be used in portable exposure condition without restriction.
