Congratulations on purchasing the Philips Qi Wireless Charger! This charger allows you to conveniently charge your compatible devices without the hassle of cables.
 ¡Felicitaciones por haber comprado el cargador inalámbrico Philips Qi! Este cargador le permite cargar sus dispositivos compatibles sin tener que lidiar con cables molestos.

Center the device on the pad.
Centre el dispositivo en la almohadilla.

Keep plugged into wall as your device charges.
Mantenga el dispositivo enchufado mientras está cargando.

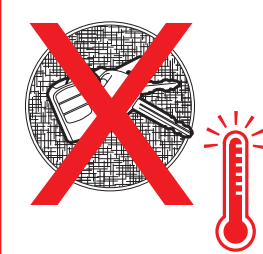

Green LED glows when device is centered and charging.

Blue LED remains on if device is not centered. Please realign.

La luz LED verde se enciende cuando el dispositivo está centrado y cargando.

La luz LED azul permanece encendido si el dispositivo no está centrado. Por favor, realínee el dispositivo.

WARNING: Avoid using ring holders or phone cases that contain metal. Metallic objects should not be placed between the wireless charging pad and your phone – metal can interrupt the charging process, as well as create heat, posing a burn risk.

ADVERTENCIA: Evite utilizar anillos o estuches para el celular que contengan metal. No se deben colocar objetos metálicos entre la almohadilla de carga inalámbrica y el celular, ya que el metal puede interrumpir el proceso de carga, así como intensificar el calor, lo que podría suponer un riesgo de incendio.

COMMENTS:

FCC Warning Statement
 Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- - Reorient or relocate the receiving antenna.
- - Increase the separation between the equipment and receiver.
- - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- - Consult the dealer or an experienced radio/TV technician for help.

RF Exposure: A distance of 15 cm shall be maintained between the antenna and users, and the transmitter may not be co-located with any other transmitter or antenna.
