ACU Family letter

Projectname: ACU EE-System
Projectnumber: PRJ000592
Customer: Daimler AG

Projectmanager: Dr. Oliver Treichel
Department: SE
Phone: +49 152 0905 0759
Email: oliver.treichel@xtronic.de

*We XTRONIC GmbH hereby requests for a Family approval of the Products below.
The ACU has two HW population variants with identical radio part and identical PCB layout under
following FCC ID and IC:*

FCC ID: 2ASIZ-00001, IC: 24737-00001

The two variants are:

- 1. Model : MBAC BM V001*
- 2. Model : MBAC EM V001*

1. Differences Base module MBAC BM V001 & extension module MBAC EM V001

The extension module does not have the MiniPC, the Ethernet, HSVL and USB host electronic components and connectors. It is used without displays and Ethernet. Therefore, the Mini PC and the interface are not needed.
