

**TWS EARBUDS**

# User Manual

# Product Schematic Diagram

## Packing List

- Bluetooth earbuds
- Charging case
- Micro USB charging cable
- User's manual
- Extra ear gels

## Product Specifications

- Bluetooth Version: V5.0
- Battery: earbuds 3.7V/40mah  
Charging box 3.7V/300mah
- Sensitivity: 105Db+/-3db S.P.L at 1KHz
- Transmission distance: 10 meters
- Play time: 3h
- Standby time: 36h
- Charging time: Charge the charging case about 1.5h  
Charge the earbud about 1h
- Charging box to charge the earbud: about 3 times

## OPERATION

When your earbuds are low on power, you will hear a low power prompt. When the True Wireless earbuds are fully charged the red lights on the earbuds LED indicators will briefly turn blue before turning off.

### Charging The Charging Case

1. Plug the provided USB cable into the USB port of the Charging case(with or without the earbuds in it).
2. Plug the other end of the USB cable into a power source. The Charging case's LED indicator light will flash red. This indicates that the charging case has successfully begun charging.
3. Leave the charging case plugged in until the red light stops flashing and glows solid red. This indicates that charging has been completed.

### Charging The Earbuds

Place the earbuds in the charging case and close the box. The earbuds will automatically begin charging. The indicator of the charging case is turning blue while charging the earbuds and it will turn off after fully charged.

### **Power On/Off/ Auto-pairing**

**Power On: Option 1:** To pair the earbuds simply remove them from the charging case. Doing so will automatically power on and pair the earbuds to one another.

**Power On: Option 2:** Touch and hold the

"Multifunction" button on either earbud to power it

on manually.

**Power Off: Option 1:** Place the earbuds back inside the charging case.

**Power Off: Option 2:** Touch and hold the "Multifunction" buttons on earbuds to power

### **Connecting To Your Bluetooth Enabled Device:**

1. After charging has been completed and the earbuds have been powered on. Turn on the Bluetooth® functionality on your phone and select **UB E040T** to pair.
2. After the earbuds have successfully connected with the user's phone both LED indicators on the earbuds will turn off and the user will hear a prompt which means connected. This indicates that you can now listen to music or make a phone call.

### **Music Control**

When the earbuds are turned on and connected to a Bluetooth® enabled device, you can stream media to your earbuds.

- To play/pause music touch the "Multifunction" Button.
- To listen to the next song triple tap the left earbuds Multifunction button.
- To listen to the previous song triple tap the right earbuds Multifunction button.
- To raise the volume double tap the left earbuds Multifunction button.
- To lower the volume double tap the right earbuds Multifunction button.
- To answer an incoming call using your earbuds, touch either "Multifunction" button.
- To reject an incoming call, touch hold and release the "Multifunction" button.
- To end an ongoing call touch the "Multifunction" button.

## **Activating Siri (Or Other Phone AI)**

Touch and hold either multifunction button to prompt Siri (or other phone AI) to begin listening. After the phone's AI has been activated the user should release the "Multifunction" button. Note: If the user continues to hold the "Multifunction" button the earbud will power off.

### **Warning:**

The earbuds automatically power on and pair when charging has stopped. As such the user should make sure that the earbuds have been turned off after charging. Failure to do this may result in the earbuds being left on and paired for extended periods of time when not in use.

**FCC Caution:**

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**Note:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
