Specification as reference

Camera:

Sensor: 1/4 inch CMOS.

Pixel: 1280(H)*720(V).

IR CUT: Auto(ICR) / Color / Black&White.

IR Range: 8 Meters/850nm.

Rotation Angle: Pan: 350°, Tilt:100°.

Video Compression: H.264.

Frequency: 2400-2483.5MH.

Transmission Range: 300m in the open area sight.

Power supply: 5V/2A.

Dimension ((H*D*W):78*105*116mm.

Operation temperature:-10~+50 °C.

Storage temperature:-20~+60 °C.

Weight: 220g.

Monitor:

Screen Size: 5" TFT LCD monitor.

Effective Pixel: 1280(H)*720(V).

Video compression: H.264.

Wireless Transmission Way: 2.4GHZ FHSS.

Power supply: 5V/2A.

Charging Current: 700ma.

Operation temperature: -10~+50 °C.

Storage temperature: -20~+60 °C.

Lithium battery:

Capacity: 4000mAH.

Battery Work time: Max 8 hours as normal work mode.

Battery Standby time: Max 12 hours as standby mode.

Battery Charge time: At least 8 hours.

Spare parts:

Two 5V2A adapters.

Type: FCC CE and Rohs passed adapters.

Device information

Advantages: No need wireless/router setting, No need mobile compatible, No need applications.

1. Monitor

Manufacturer Information:

Name: Shenzhen Secutek Technologies Co., Ltd

Address: 5/F(West), Building A, Huafeng Gongle Industry Park, Road Tiezai, XiXiang, Ban'An Distict, Shenzhen, China

Product Information:

Name: Baby Monitor

Model: BM1

FCC Statement

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference.

(2) This device must accept any interference received, including interference that may cause undesired operation.

2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

The distance between user and products should be no less than 20cm
