

Local Representative Letter

For Certification Service in the USA

Federal Communications Commission
Equipment Authorization Division, Application Processing Branch
7435 Oakland Mills Road
Columbia, MD 21048

To whom it may concern

Pursuant to Section 2.911(d)(7), of the Commission's Rules (47 C.F.R.) we attest as follows for the product listed below:

FCC ID	Model name
2AUHL-SZD06	SZD06E,SZD06

We hereby acknowledge as follows:

- i. both signees confirm that the point of contact accepts responsibility to act as a US-American Representative on behalf of the applicant
- ii. the point of contact provides the physical U.S. address and email as listed below
- iii. both parties maintain the requirements of this agreement for no less than one year after the grantee has terminated all marketing and importation or the conclusion of any Commission-related proceeding involving the equipment.
- iv. An expiration date for this letter does not exist. In case the U.S. agent changes, the grantee is obligated to notify the FCC within 30 days via the granting TCB.

1. **What is the purpose of the study?** The purpose of this study is to examine the relationship between the use of a VR-based intervention and the reduction of anxiety in patients with social anxiety disorder.

2. **What is the intervention?** The intervention is a VR-based cognitive behavioral therapy (CBT) program. It consists of a series of VR scenarios designed to expose patients to social situations that trigger anxiety. The program includes guided imagery, relaxation techniques, and cognitive restructuring exercises.

3. **What is the control group?** The control group is a waiting list group. Patients in this group receive no treatment until the end of the study period.

4. **What is the outcome measure?** The primary outcome measure is the reduction in anxiety levels as measured by the Social Anxiety Inventory (SAI) at the end of the study period.

5. **What is the sample size?** The sample size is 50 patients, divided into two groups of 25 each.

6. **What is the study design?** The study design is a randomized controlled trial (RCT).

7. **What is the duration of the study?** The duration of the study is 12 weeks.

8. **What is the recruitment period?** The recruitment period is 4 weeks.

9. **What is the exclusion criteria?** The exclusion criteria include patients with a history of substance abuse, patients with a history of psychosis, and patients who are currently taking psychotropic medications.

10. **What is the data analysis plan?** The data analysis plan includes descriptive statistics for all variables, and a comparison of the SAI scores between the intervention and control groups using an independent samples t-test.

11. **What is the power of the study?** The power of the study is 0.80, with a significance level of 0.05.

12. **What is the sample size calculation?** The sample size calculation is based on a power of 0.80 and a significance level of 0.05.

13. **What is the randomization procedure?** The randomization procedure is a random number generator.

14. **What is the allocation concealment?** The allocation concealment is a sealed envelope.

15. **What is the blinding?** The blinding is a double-blind study.

16. **What is the follow-up?** The follow-up is at the end of the study period.

17. **What is the data analysis plan?** The data analysis plan includes descriptive statistics for all variables, and a comparison of the SAI scores between the intervention and control groups using an independent samples t-test.

18. **What is the power of the study?** The power of the study is 0.80, with a significance level of 0.05.

19. **What is the sample size calculation?** The sample size calculation is based on a power of 0.80 and a significance level of 0.05.

20. **What is the randomization procedure?** The randomization procedure is a random number generator.

21. **What is the allocation concealment?** The allocation concealment is a sealed envelope.

22. **What is the blinding?** The blinding is a double-blind study.

23. **What is the follow-up?** The follow-up is at the end of the study period.

24. **What is the data analysis plan?** The data analysis plan includes descriptive statistics for all variables, and a comparison of the SAI scores between the intervention and control groups using an independent samples t-test.
