Subject: **Modular Transmitter Application**

Company name: Rigado, Inc.

FCC ID: 2AUPX04

Dear Sir/Madam,

This letter includes the FCC application requirements for Modular Transmitter Approval Request for:-

FCC KDB 996369 D01 'Module Certification Guide v02; and
FCC KDB 996369 D03 OEM Manual v01

In accordance with 47CFR 15.212 Modular Transmitters and KDB 996369 D01 'Module Equip Auth Guide v02'. FCC ID 2AUPX04 has been examined against the following requirements.

Requirement per 15.212 and KDB 996369 D01	Explanation from Grantee (do not write yes/no, but explain why product complies/how it is achieved)
The radio elements must have the radio frequency circuitry shielded. Physical components and tuning capacitor(s) may be located external to the shield, but must be on the module assembly.	Both radio SoCs and related radio elements are covered by solid, 2-part can shields to prevent interference with other electronics in the host device and to ensure any emissions comply with regulatory requirements.
The module must have buffered modulation/data inputs to ensure that the device will comply with Part 15 requirements with any type of input signal.	The module includes input buffering circuitry between the external modulation or data sources and the transmitter core.
The module must contain power supply regulation on the module.	The module contains power supply regulation on the module.
The module must contain a permanently attached antenna, or contain a unique antenna connector, and be marketed and operated only with specific antenna(s), per §§ 15.203, 15.204(b), 15.204(c), 15.212(a), 2.929(b).	The module contains permanently attached antenna on the PCB board
The module must demonstrate compliance in a stand-alone configuration.	The module can demonstrate compliance in a stand-alone configuration.
The module must be labeled with its permanently affixed FCC ID label, or use an electronic display (see KDB Publication 784748).	The module is labeled with its permanently affixed FCC ID label.
The module must comply with all specific rules applicable to the transmitter, including all the conditions provided in the integration instructions by the grantee.	The module comply with all specific rules applicable to the transmitter.

Rigado, Inc.
200 Hawthorne Ave SE Ste. D-400 Salem, Oregon 97301, United
states

The module must comply with RF exposure requirements	The module comply with RF exposure requirements

Integration Instructions for host product manufacturers

The following items are submitted in support of application for Modular Transmitter FCC ID as noted above as required by the FCC KDB 996369 D03 OEM Manual v01.

These items are provided as integration instructions for host product manufacturers (e.g., OEM instruction manual) to use when integrating a module in a host product.

Any requirements that are not applicable to the Module are as indicated below.

Summary of requirements and Checklist. Refer to the KDB for description of the complete requirements;

KDB Ref Sect	Requirements of KDB 996369 D03	User Manual Page Number reference
2.2	List of applicable FCC rules	9
2.3	Summarize the specific operational use conditions	2
2.4	Limited module procedures	
2.5	Trace antenna designs	
2.6	RF exposure considerations	9
2.7	Antennas	3
2.8	Label and compliance information	9
2.9	Information on test modes and additional testing requirements	9
2.10	Additional testing, Part 15 Subpart B disclaimer	9
