

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the EUT housing and board assembly. The assembly consists of a clear glass bulb-like housing, a white ceramic cup, and a metal base. The components are placed on a blue surface next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).
Solder Board-Component View 1	 A photograph showing the solder board component. The component is a small circuit board with several electronic components, including a red capacitor, a black resistor, and several green and white components. The board is placed on a blue surface next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).

Solder Board-Component View 2	 A photograph showing a small, circular electronic component with a white solder mask and several surface-mounted components. It has three wires extending from it: one black, one white, and one thin silver wire. The component is placed on a blue surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component positioned between the 10mm and 20mm marks.
Solder Board-Component View 3	 A photograph showing a small, circular electronic component with a white solder mask and several surface-mounted components. It has three wires extending from it: one black, one white, and one thin silver wire. The component is placed on a blue surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component positioned between the 10mm and 20mm marks.

Solder Board-Component View 4	 A photograph of a small electronic component, likely a sensor or microcontroller, with a circular white PCB. It has three wires extending from it: two white and one black. The component is placed on a blue surface next to a black ruler with white markings. The ruler shows dimensions in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).
Solder Board-Component View 5	 A photograph of the same electronic component from a different angle. It shows the underside of the circular white PCB, revealing various electronic components like resistors and capacitors. The three wires (two white, one black) are still attached. The component is placed on a blue surface next to a black ruler with white markings, similar to the previous view.
