PRODUCT DATA SHEET CONTROL UNIT & REMOTE CONTROL

Product: Bluetooth control box

Model/Type Reference : ZEN-BT-AS-01

Rated Input : DC 5V 100mA Max;

Color:Black or white

Dimension:61*28*23.2mm

Connreter:RJ45

Environment: Operation Storage

Ambient temperature: 5 to 40 °C -10 °C to +50 °C

Relative humidity: 20 to 80 % at 30 °C 20 to 80 % at 30 °C

Atmospheric pressure: 700 to 1060 hPa 700 to 1060 hPa

Enclosure: ABS V0 60°C

Product features

Mobile phone APP available operating lift table

Can be set up "sedentary remind"

Can be set up health plan

Use the password can be set lift table

The attached troubleshooting guide

Can form a complete set of ZGO all electric lift table system

Environment

Meaning of crossed –out wheeled dustbin:

Do not dispose of electrical appliances as unsorted municipal waste, use separate collection facilities.

Contact you local government for information regarding the collection systems available.

If electrical appliances are disposed of in landfills or dumps, hazardous substances can leak into the groundwater and get into the food chain, damaging your health and well-being.

When replacing old appliances with new ones, the retailer is legally obligated to take back your old appliance for disposals at least free of charge.

Safety Instructions

When installing and using electrical equipment, basic safety precaution should always be followed to avoid a risk of fire, electric shock, or injury to persons:

- 1) this appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved.
- 2) children shall not play with the appliance.

If you have any questions regarding this, please contact Technical Support.

SAVE THESE INSTRUCTIONS

WARNING:

This device complies with part 15 of the FCC Rules. Operation is subject to the condition that this device does not cause harmful interference.

This device is verified to comply with part 15 of the FCC Rules for use with cable television service. This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and*
- (2) this device must accept any interference received, including interference that may cause undesired operation*

Please note that changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.*
- Increase the separation between the equipment and receiver.*
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.*
- Consult the dealer or an experienced radio/TV technician for help.*

This equipment complies with radio frequency exposure limits set forth by the FCC for an uncontrolled environment.

This device must not be co-located or operating in conjunction with any other antenna or transmitter.
