

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS**EUT Housing and Board
View 1****Solder
Board-Component View
1**

Solder Board-Component View 2	 A photograph of a green printed circuit board (PCB) with various electronic components soldered onto it. The board is rectangular with a complex layout of copper traces. Several silver-colored components, likely surface-mount devices, are visible. A ruler is placed horizontally below the board, showing measurements in centimeters (0 to 24) and millimeters (0.5 mm increments). A vertical ruler is also present on the left side, showing measurements in centimeters (1 to 20).
Solder Board-Component View 3	 A photograph of a small green PCB strip with six LEDs labeled LED1 through LED6. LED1 and LED2 are yellow, LED3 is red, LED4 is red, LED5 is red, and LED6 is green. A white plastic component is attached to the left side of the strip. A ruler is placed horizontally below the strip, showing measurements in centimeters (0 to 11) and millimeters (0.5 mm increments). A vertical ruler is also present on the left side, showing measurements in centimeters (1 to 10).

Solder Board-Component View 4	 A photograph showing a small green printed circuit board (PCB) component with several solder joints. The component is placed on a blue textured surface. A metal ruler is positioned vertically to the left of the component, showing a scale from 1 to 9 cm. Another metal ruler is placed horizontally below the component, showing a scale from 1 to 10 mm.
Antenna View	 A photograph showing a larger green PCB assembly with various electronic components. A red line points from a label "BT Antenna" to a specific component on the board. A metal ruler is placed vertically to the left of the assembly, showing a scale from 1 to 20 cm. Another metal ruler is placed horizontally below the assembly, showing a scale from 1 to 24 cm.
