Troubleshooting

Q1. The tablet doesn't power on.

- Reboot your tablet after charging for 30 minutes.
- Press the power button in case your device is in sleep mode.
- Press the power button for about 7-8s to reboot.
- Press the Reset button with a pin to reboot the tablet.

Q2. The tablet doesn't charge.

- Keep your device plugged in for 30 minutes if it was completely drained.
- Clean the caches in your device regularly.
- Install a microSD card to expand the storage.
- Try another compatible USB cable and adapter.

Q3. Error message during operation.

- Uninstall the application with an error message and download it to install again. You can also update certain applications with the error.
- Press the Reset button with a pin to reboot the tablet.

Q4. The tablet can't be detected by the computer.

- Try another USB cable.
- Connect your tablet to a different port on your PC.
- Instead of Charge only, choose Media device(MTP) Or Camera(PTP) when connecting the tablet to the computer.

19

Q5. Device cannot connect to Wifi.

- Make sure the Wifi on your tablet is ON.
- Make sure you input the correct password
- Restart the router.
- Make sure there is no filtering setting or device connection limit in your router setting.
- Forget the original Wi-Fi connection, reset the router, and connect again.

Q6. The storage space of the tablet is not enough.

- Delete any applications you don't use.
- Clean the caches in your device regularly.
- Install a microSD card to expand the storage.

Q7. The tablet comes with scratches on the screen.

- Check if the scratches are on the film, if yes, please remove the film.

Q8. The screen is unresponsive.

- Check if the screen is dusty or greasy. If yes, please gently wipe the screen with a cloth.

Q9. How to use your voice to search for a fact?

- Tap the microphone icon on Google Search bar, tell the tablet what you want to know and it will show you the search results.

FCC Warning

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
 (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. NOTE 1: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
 - Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - Consult the dealer or an experienced radio/TV technician for help.

NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
