■ Precautions for use

- ① Headphones should be stored in a dry and ventilated environment to avoid contact with oil, water vapor and steam. In order to avoid affecting product performance.
- ② Avoid cleaning with irritating, organic solvents or materials containing these ingredients.
- ③ The headset should be used according to the correct specification requirements, and pay attention to the influence of the using environment on the headset. To ensure smooth connection, it is recommended that the distance between the mobile phone and the earphone be within 10 meters.
- ④ If the earphone fails to connect or communicate properly, do not remove the earphone without permission. The machine body and its accessories are not guaranteed otherwise.
- ⑤ To charge the earphone, please use the standard car charger or the one specified by our company. Chargers required.
- ⑥ To ensure normal use of the earphone, ensure that the power of the earphone is sufficient.

FCC Warning

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE 1: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
