

EXHIBIT 2 - EUT EXTERNAL PHOTOGRAPHS**EUT View 1****EUT View 2**

Model: E9PMB

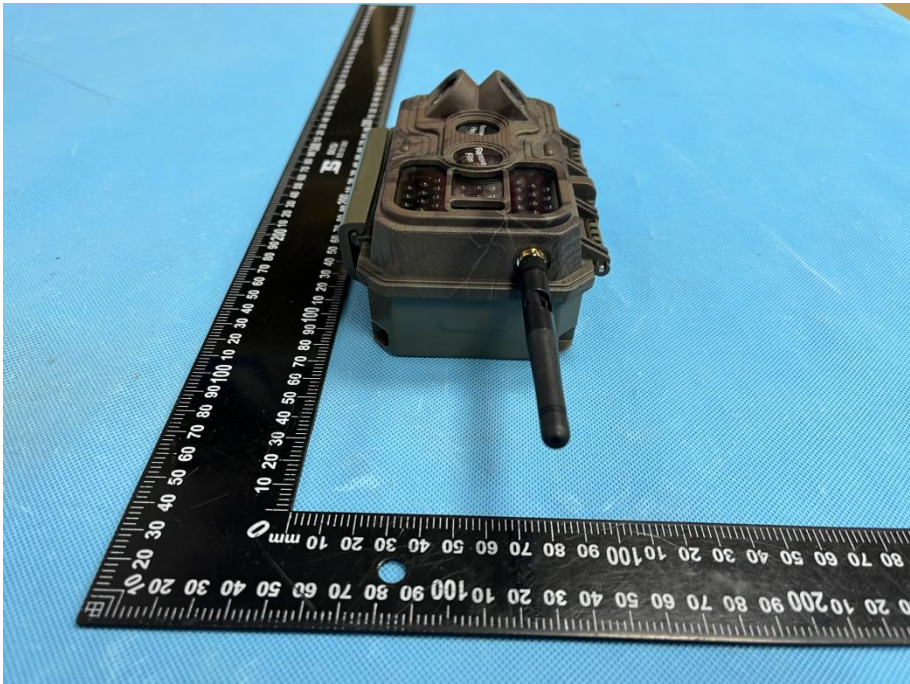

EUT View 1	 A photograph showing the front of a rugged, olive-green electronic device. The device has a small screen at the top, a keypad below it, and three circular buttons labeled 'Remove Film', 'Remove Pin', and 'Remove Film'. A black antenna is attached to the top. The device is placed on a blue surface next to a black ruler with white markings in centimeters and millimeters.
EUT View 2	 A photograph showing the side of the same olive-green electronic device. It features a large, rectangular button or slider on the side and a small circular button at the bottom. The device is placed on a blue surface next to a black ruler with white markings in centimeters and millimeters.

EUT View 6

Model: E9PCF

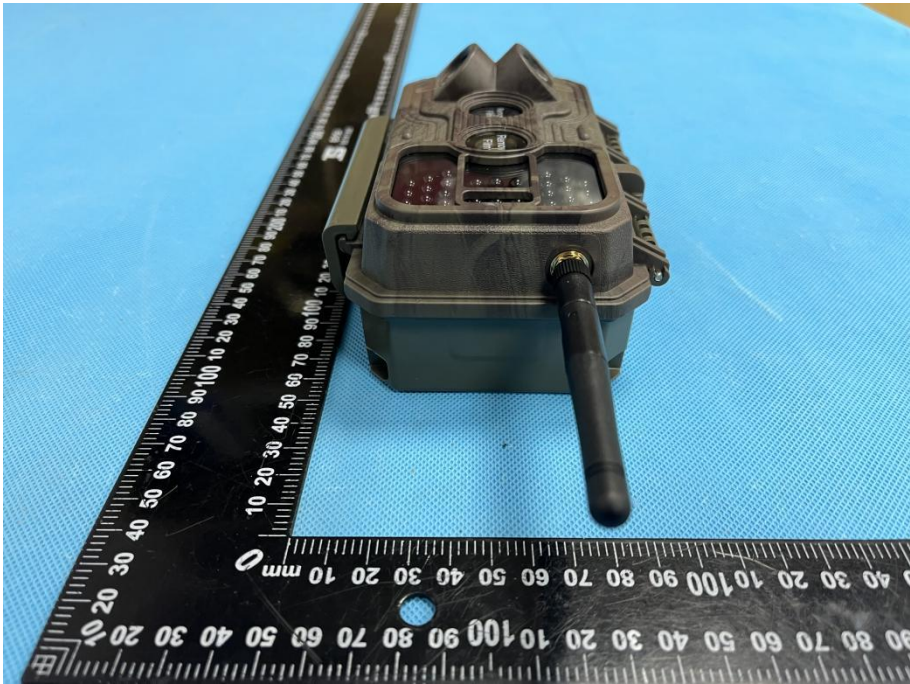

EUT View 1	 A photograph showing the front of a rugged, olive-green electronic device. The device has a small screen at the top, a numeric keypad below it, and several circular buttons with labels like 'Remove Film' and 'MMS'. A black antenna is attached to the top. The device is placed on a blue textured surface next to a black ruler with white markings in centimeters and millimeters.
EUT View 2	 A photograph showing the side of the same olive-green electronic device. It features a large, rectangular protrusion on the side, possibly a port or a connector. The device is placed on a blue textured surface next to a black ruler with white markings in centimeters and millimeters.

EUT View 3	 A black, ruggedized electronic device, identified as a 'GardePro Trail Camera Model# ESPCF', is shown from a top-down perspective. The device has a rectangular shape with rounded corners and a small antenna protruding from the top. It is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in both centimeters and inches. The device's label includes the brand name 'GardePro', the model number 'Trail Camera Model# ESPCF', and various certification logos (CE, FCC, UK).
EUT View 4	 A side view of the same black ruggedized device is shown. The device has a thick, protective casing with visible ridges and a small antenna on the top. It is positioned vertically next to a black ruler with white markings on a blue textured background. The ruler provides a scale for the device's dimensions.

EUT View 6

Model: E9PWF

EUT View 1	 A photograph showing the front of a rugged, black electronic device (EUT View 1). The device features a large array of yellow LEDs on the left side of the front face. Below the LEDs are four circular buttons, each labeled "Remove Film". A black antenna is attached to the top. The device is placed on a blue textured surface next to a black ruler with white markings in centimeters and millimeters.
EUT View 2	 A photograph showing the side of the same rugged electronic device (EUT View 2). The side view shows a textured, black casing with a small, rectangular port or slot. The device is placed on a blue textured surface next to a black ruler with white markings in centimeters and millimeters.

EUT View 3	 A photograph showing the back of a black, ruggedized electronic device. The device has a rectangular shape with rounded corners and a small antenna protruding from the top. A label on the back reads "GardePro Trail Camera Model# E9PW6 www.gardep.com". The device is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in centimeters and millimeters.
EUT View 4	 A photograph showing the side of the same black, ruggedized electronic device. The side view shows a series of small, rectangular protrusions along the edge, likely for mounting or ventilation. The device is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in centimeters and millimeters.
