Note

■ Warranty period is 1 year from date of purchase.
■ This product involves constant upgrading and/or improvement, our company reserves the right to change the specifications of software and/or hardware mentioned in this operating guide without any prior notice. The product specifications and information mentioned in the operating guide are for reference only.

Check List

① Radio Unit ② Palm Microphone ③ Microphone Hanger and Screws ④ Antenna
⑤ Power cable with fuse ⑥ Mounting Bracket Kit ⑦ Quick Start Manual

Notice:

Please check the above accessories before you discard the packing material. Please contact your local dealer immediately if there is any missing or damage parts.
The antenna is recommended to be fixed on the plane in the upper right/left corner of the center console with the Logo facing upwards.
Warning: The Antenna must not be placed in the area affected by SRS airbag.

Installation Steps

● Before you install the radio in a vehicle, be sure to read the following instructions carefully.
● The radio operates with cathode-grounded power supply of 12 to 24V DC only.
● Please check polarity and voltage of the power supply on the vehicle before you install the radio.
● Please check how long the screws will extend from the bottom surface of the radio, before you install the radio. Drill the mounting hole cautiously to avoid damage to the vehicle wiring and other parts.
● Please connect Telo supplied antenna and power cord to the radio, before you install it in the bracket. And make sure the antenna and power cord is dedicated for Telo Systems digital radios.
● Install the radio with Telo supplied mounting bracket, to avoid radio looseness in case of accidents. The loose radio may cause body injury.
● Install the radio in a location where it's easy to reach the front panel controls.
● Please make sure there's sufficient space at back of the radio for wiring.
● When the fuse for DC power cord needs replacement, it must be replaced by a fuse with the same specification.

Installation Steps

A. Install the bracket in a location where it's easy to operate the device.
B. Connect accessories such as antenna and power cable to the device.
C. Slide the device into the mounting bracket and secure it using the locking knobs.
D. Install the microphone hanger in a location where it can be reached easily.
E. Plug the palm microphone into the microphone jack on the front panel and place it on the hanger when you do not use it.

No.	Part Name
1	Mounting Bracket
2	Locking Knobs
3	Antenna Cap

Care and Cleaning

■ To guarantee optimal performance as well as a long service life of the product, please follow the tips below.

Before Use

■ Turn on the switch connects communicator and with car battery/circuit.
■ Insert SIM into M6G vehicular communicator and enable SIM data, or connect to a certain Wi-Fi/hotspot.

Product Care

■ Keep the product at a place with good ventilation and heat dissipation to facilitate normal work.
■ Do not place irrelevant articles on top of the product to ensure optimal heat dissipation.
■ Do not place the product in corrosive agents, solutions or water.

Product Cleaning

■ Clean up the dust and fine particles on the product parts with a clean and dry lint-free cloth or a brush regularly.
■ Use a non-woven fabric with neutral cleanser to clean the keys, control knobs, LCD and jacks after long-time use.
■ Don't use chemical preparations such as stain removers, alcohol, sprays or oil preparations.
■ Make sure the product is completely dry before use.

Caution: Power off the product before cleaning.
