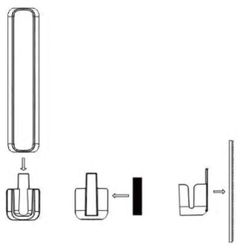
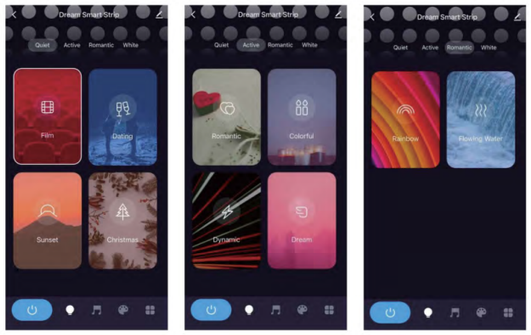
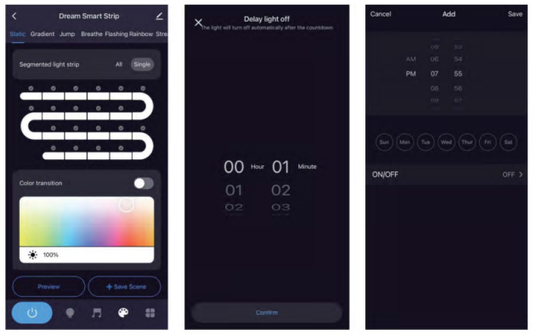
2. Wipe the adhered surface, then peel off the other side of the centrifugal paper and adhere it



Ⅵ:Function





Ⅶ: Wide Applications: Home, bars, game halls, etc.

Ⅷ: Troubleshooting

1. When the device cannot be linked to the Smart Life app

Make sure the device is powered on and the phone is connected to WIFI and Bluetooth is turned on

When connecting for the first time, make sure your smartphone is close to the device and the router.

Make sure the device is in the pending connection state and the red light flash

If it is still not successful,please exit the Smart Life app and then go back in to the Smart Life app to connect (make sure the device is in the pending connection state and the red light is flashing)

2. Sluggish response and loss of connection

Make sure the WIFI network is stable and the device is powered up properly

Re-exit the Smart Life program and re-enter the Smart Life program to connect

3. Device music sensitivity is not enough

Make sure the controller is close to the music source, this will make the microphone sound better

You can adjust the sensitivity inside the "Smart Life" program

4.If the adhesive provided is not sticky enough to wipe the wall,please make sure it is dry and clean.

After installing the bracket, press hard for a few times to make sure it sticks completely.

IX: Third party controls supported

Alexa and Google Assistant
