

### Remote Control Bulb User Manual

Trade Name: **Remote Control Bulb**

Module No. **YL-QP-APP-01**

FCC ID: **2AZRW-YLLEDQAP**

#### Remote Control Bulb Introduction:

Remote Control Bulb uses LED as light source, high efficiency and energy saving, no electromagnetic radiation, uniform brightness, easy installation, use and replace incandescent fluorescent lamp.

#### 一、bulb characteristics:

1. Plastic - wrapped aluminum shell, earthquake - resistant, safe to use;
2. LED light source low energy consumption, long service life (service life > 5000h);
3. Power driven fast reaction speed, high light efficiency, no stroboscope;
4. Can switch the color temperature, use the scene diversification;
5. Environmental protection and no pollution.

#### 二、specification

The product name	Remote Control Bulb
The input voltage	AC-120V
power	3-9W
Adapter socket	E27,E26,E14.E40
Rated current	0.2A
The power factor	>0.5
brightness (lm)	>600lm
Color temperature (k)	2700-10000k
Color rendering index	>80
Operating ambient temperature (°C)	-25°C-40°C
The control methods	TUYA APP
The control model	Wifi+ bluetooth

#### 三、Method of use

Open the doodle APP, the bulb is powered on, and the bulb flickers. Add the bulb to the doodle APP, and you can adjust the bulb with your mobile phone after adding the bulb successfully.

#### 四、Using range

Indoor household, office, restaurant, conference room and other places that need lighting.

#### 五、installation

Remove the old bulb and fasten the bulb clockwise on the cap (cap for E27,E26,E14.E40)

#### 六、Matters needing attention

This device complies with Part 15 of the FCC Rules.

---

Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

**1, please confirm bulb specifications before use, pay attention to use according to the voltage marked on the bulb;**

**2, when replacing the bulb, turn off the power first to avoid electric shock;**

**3, pay attention to bulb waterproof;**

**4, do not remove the bulb without authorization, when the PC cover off, shell damage please stop using;**

**5, can not be used at the same time with the dimmer.**

**WARNING:** This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

**CAUTION:** Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**NOTE:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the distance between the equipment and receiver.
