

HAWORTH  
BELONG POWER CUBE 79280102  
FCC ID: 2AZT6-80102

### Description

Thank you for choosing HAWORTH 3-port plug with USBeextension. Please read the manual carefully and use the appliance correctly in accordance with the manual for easier and faster use of the product.

### Function:

1. This product is a wireless charging function of the socket, mainly used in the home, dormitory, office, tourism and other scenes.
2. This product has3U.S. standard AC socketsbuiltin,distributed in three different directions, without interfering with each other' use.

3. Product configuration 2 0-2.4A intelligent identification USB-A interface, a 15W output USB-C interface, 1 10W QI wireless charging module, DC rated output power 25W.

## How to use it

1. Plug the USB expansion into the ground socket correctly.
2. Insert the appliance into the USB expansion cable.
3. Plug the charging cable into the USB connector and connect the USB rechargeable device to charge it.
4. When charging, remove the device from the leader and turn off the power.

## Specification

Input /Output Voltage: AC100-125V 60Hz 15A 1875W MAX

Outlets: 3 U.S. standard AC sockets

USB output voltage: 5V/2A (USB-A), 5V/3A (USB-C).

Wireless charge: 9V/1.1A

DC Power Rating: 25W (Total Power)

Protection features: overload protection, overcurrent protection, short-circuit protection, surge protection

Insulation strength: Input-to-output: 3000VAC 50HZ 1 minute  $\leq$  10mA

Length: 2.74m

Operating temperature: -5-40 degrees C

Storage temperature: -20-80 degrees C

Operating humidity: 10%-90% (relative humidity is not exposed).

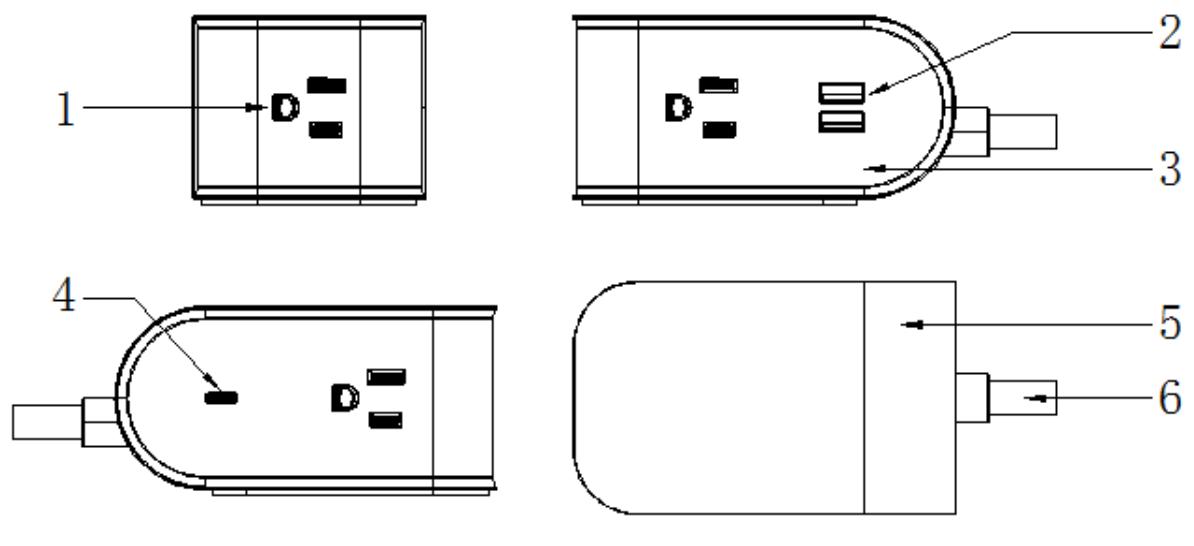

Size:113mmx68.6mmx55.5mm

Weight:730g

### Package content:

1. 1\*HAWORTH Power Cube
2. 1\*User Manual

### Specifications:

1: US Outlets

2: USB A

3: Housing

4: USB-C Port

5:Cover

6: 9 Feet US Power Cord

### Note:

1. Please make sure all the connected devices are within the acceptable total range of voltage and current in case of damaging device.
2. It's normal for the Power Strip to be a little warmer when you use it to charge multiple devices at the same time.

3. When your device runs out of battery and power off, some devices may be charged a little slower at the beginning because of the battery protection from your device.
4. Please avoid beating or crashing the Power Strip.
5. Always keep away from heat sources and water in case of short circuit.

Please keep the power strip away from children.

**Caution:**

TO REDUCE THE RISK OF ELECTRIC SHOCK, USE ONLY INDOORS. RISK OF ELECTRIC SHOCK-DO NOT PLUG INTO ANOTHER RELOCATABLE POWER TAPS. USE ONLY IN DAY LOCATION.

**Warranty:**

HAWORTH will provide customers with 18 Months warranty from the date of purchase.

**Contact Us:**

For any inquiries or comments about our products, please send an email to [xx@haworth.com](mailto:xx@haworth.com) and we will respond to you as soon as possible. If there is any quality-related issue with the product you may request a replacement or refund, please send email to [xxx@haworth.com](mailto:xxx@haworth.com).

**FCC Caution:** Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This device and its antenna(s) must not be co-located or operating in conjunction with any other antenna or transmitter.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum distance between 20cm the radiator your body: Use only the supplied antenna.
