

# 3-in-1 Magnetic Powerbank

10,000 mAh Ultra Capacity

Model : IJS.220

USER MANUAL

## 1 Specifications

Battery Type: Li-Polymer Battery

Capacity: 10,000mAh (3.85V/38.5Wh)

Conversion Rate: 60%(5V2A)

Input: 5V=3A, 9V=2.22A, 12V=1.67A

Type-C Output: 5V=3A, 9V=2.22A, 12V=1.67A 20W(Max)

Wireless Output(iPhone): 15W(Max)/10W/7.5W/5W

Wireless Output(iWatch): 2.5W

Wireless Output(Earbuds): 3W

Size: 4 X 2.6 X 0.53 in

Storage Temperature: 14-104°F

## 2 Product Overview

## 3 Charging Your iPhone

To begin wireless charging, place charger on the back of your phone as illustrated below.

Status	Fast Charging Status Indicator	Battery Level Indicator
Fast Charging	The status indicator light is constantly on	The power indicator light is constantly on

## 4 Charging Your Device While Recharging Your Portable Charger

Status	Fast Charging Status Indicator	Battery Level Indicator
Simultaneous charging and discharging	The status indicator light is off	The current battery level display light flashes
Fully Charged	The battery indicator light is off	Displays 100%

## 5 Charging Your Phone With Cable

Status	Fast Charging Status Indicator	Battery Level Indicator
Phones Fast charging	The status indicator light is on	The power indicator light is on

## 6 Recharging Your Portable Charger

Status	Fast Charging Status Indicator	Battery Level Indicator
Fast Charging	⚡ The status indicator light is constantly on	The current battery level display light flashes
Fully Charged	⚡ The battery indicator light is constantly on	Displays 100%

## 7 Compatible with Multi-Device Charging

Magnetic wireless charging supports a maximum of 15W output. The final receiving power of each mobile phone varies

Wireless charging supports the charging of iPhone, iWatch and AirPods; Type-c output supports charging for all phones, watches, headphones, tablets, and other devices.

Wireless charger is only compatible with Magsafe compatible phones.

Both the protective phone case and the position of your device on the wireless charger will affect the charging speed. The farther it is placed from the center of the wireless charger, the slower the charging speed will be.

Note: When battery is below 10%, press power button to turn on wireless charger.

## 8 Important Safety Instructions

When using this product, basic precautions should always be followed, including the following:

1. Store the product in a cool, dry place.
2. Do not store the product in a hot or humid environment.
3. Use of a power supply or charger not recommended by the product manufacturer may result in a risk of injury to persons.
4. Operating temperature should be between 32°F to 104°F.
5. Do not disassemble the product. Incorrect reassembly may result in a risk of fire or injury to persons.

6. It's recommended to recharge the battery once in every 3 months.

7. When charging a device, the product may feel warm. This is normal operating condition and should not be a cause for concern.

8. Do not dispose of the product in heat or fire.

9. Do not clean the products with harmful chemicals or detergents.

10. When disposing of secondary cells or batteries, keep cells or batteries of different electrochemical systems from each other.

11. Be aware that a discharged battery may cause fire or smoke. Tape the terminals to insulate them.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television, which can be determined by turning the equipment off and on.

## FCC STATEMENT

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, (2) this device must accept any interference received, Application scenario including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit

different from that to which the receiver is connected. --Consult the dealer or an experienced radio/TV technician for help.

Caution: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

## FCC RF EXPOSURE STATEMENT:

The device has been evaluated to meet general RF exposure requirements. The device can be used in portable exposure conditions without restriction.

CAUTION: Risk of Fire and Burns. Do Not Open, Crush, Heat Above 140°F or Incinerate. Follow Manufacturer's Instructions.
