## ISED Canada Statement:

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation,

Science and Economic Development Canada 's licence exempt RSS(s). Operation is subject to the

following two conditions:

1) this device may not cause interference and

2) this device must accept any interference, including interference

may cause undesired operation of the device.

Radiation Exposure: This equipment complies with Canada radiation exposure limits set forth for an uncontrolled environment

To maintain compliance with IC's RF Exposure guidelines,

This device and its antenna(s) must not be

co-located or operation in conjunction with any other antenna or transmitter

D é claration de l'ISED Canada :

Cet appareil contient des é metteurs / r é cepteurs exempts de licence qui sont conformes aux RSS exemptes de licence

d'Innovation, Sciences et D é veloppement é conomique Canada. L'op é ration est sous r é serve des deux conditions suivantes:

1) cet appareil ne peut pas causer d'interf é rences et

2) ce dispositif doit accepter toute interf é rence, y compris

peut provoquer le fonctionnement ind é sirable de l'appareil. Exposition aux rayonnements : Cet é quipement est conforme aux radiations du Canada

limites d'exposition pour un environnement incontrôl é Pour maintenir la conformit é avec les lignes directrices

d' exposition RF d' IC,

Ce dispositif et ses antennes ne doivent pas l'ê tre

Le fonctionnement est associ é à toute autre antenne é metteur

## FCC Warning Statement

changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiater adol frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- -- Reorient or relocate the receiving antenna.
- -- Increase the separation between the equipment and receiver.
- --Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- -- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and

(2) this device must accept any interference received, including interference that may cause undesired operation.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
