

# MODEL: R06

## Instruction manual

Please read the instruction manual before using

## Product specifications

Effective distance:  $\geq 10\text{m}$

Horn diameter:  $\Phi 13\text{mm}$

Horn power:  $5\text{mW} \times 2$

Impedance:  $32\Omega$

Microphone sensitivity:  $-42 \pm 3\text{dB}$

Signal-to-noise ratio:  $\geq 90\text{dB}$

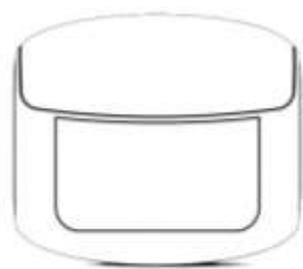

Distortion:  $\leq 3\%$

Frequency response:  $20\text{Hz}-20\text{KHz}$

Duration : About 5 hours

( All technical information is subject to actual performance )

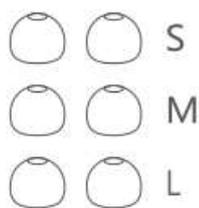

## Package List

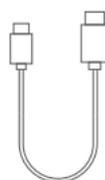

Charging box\*1

Headphones\*2

Ear Cap\*6

## Product Precautions

(1) Do not attempt to disassemble or replace any part of the product except as specifically indicated in the instructions.

(2) This product contains built-in rechargeable battery, do not impact, squeeze, puncture, short circuit battery. If the temperature is too high, deformation, swelling, leakage and other abnormal phenomena, please stop using. Do not place the battery in high temperature and high pressure environments such as open flame, sunlight exposure, heaters, furnaces, etc. Do not use the battery after soaking in water. After the earphone is used, do not place the earphone in a high temperature and high pressure environment such as damp, dust, smoke, steam, and direct sunlight to avoid damage to the earphone and battery. Batteries can only be charged and discharged a limited number of times and will eventually age. When the battery is used abnormally, the same type or efficient type of battery should be replaced by the after-sales service provider. Do not replace the battery by yourself. If the battery is not replaced properly, there is a risk of explosion.

(3) Do not throw the product into the fire after use. Waste disposal should be handled in strict accordance with garbage classification. Please use this product reasonably and correctly, so as not to cause certain injury and environmental damage.

(4) In the process of using the headset (such as listening to music, watching videos, playing games, etc.), due to the long distance, there are obstacles in the middle or other radio signals, Bluetooth signals, WIFI signals and other interference, there will be occasional delays, different voice steps or disconnection. Reconnect your headphones or stay away from distractions when this happens.

(5) When charging, use a charging device with an output voltage of DC DC 5V/1A. You must select a charging device that has obtained the CCC safety certification from a regular manufacturer. Do not use the fast charger, so as not to cause too much battery load and battery damage. The continuous charging time should not exceed the specified charging time, and do not use it during charging to avoid damage.

## Guidelines for Safe and Effective Use

Note: Please read this information first before using your Bluetooth headset.

If the user makes changes or modifications to the Bluetooth headset without permission, it will not continue to enjoy the services and rights contained in the device.

### ① Electromagnetic interference:

			brightness to achieve the lighting effect)
e	Alarm clock adjustment	l	Noise reduction Turn on or off (Turn on noise reduction can be timed)
f	Screen brightness adjustment	m	give a like
g	Take a picture		

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction
