

SPECIFICATION FOR PRODUCT			
Product name	shower head	Product model	ZP0203-B
Technical specifications			
item	Performance parameter	item	Performance parameter
Operating voltage	DC12~24V	Audio signal-to-noise ratio	>90dB
Working current	500mA(Max)	Distortion degree	<1%
Bluetooth version	Bluetooth 4.1	Output power	3W*2 @4Ω
Bluetooth device name	ZP0203-B	Power input interface	5.6*2.0 DC 母头
Frequency range	2.400-2.480GHz	Speaker size	45*25*101mm
Transmission power	7dBm(Max)	Additional function	--
Wireless transmission range	>10M	Hardware version number	V1.0
Function description Connect the power supply, the shower head emits a startup prompt tone, indicating that it is waiting for the connection; At this time, turn on the Bluetooth function of the mobile phone, search for Bluetooth devices, find a device named "ZP0203-B", you can click to connect. When the shower head emits a connection prompt tone, it indicates that the phone has been successfully connected.			

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Warning: changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment

Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
