To whom it may concern:

Sibel Health Inc., hereby requests a Permissive Change Class II of the radio equipment certification for the ISP-1807 module certification number, FCC ID: 2BCQV-12056. The change involves the addition of host specific portable exposure configuration.

I do attest that the Field strength and/or RF Output readings remained the same or are lower than the originally approved product and that they did not increase therefore qualifying this product for this application type.

Sincerely,

A handwritten signature in black ink, appearing to read "S Coughlin".
