

Wireless Audio Adapter  
FCC ID :2BDHR-SIMR-US1

## Product Overview

## 01 Connect to the First Phone

1. Plug the receiver into the car USB port and 3.5mm port.
  2. It will automatically turn on and enter pairing mode when starting your car.
  3. Connect to "BT DONGLE" in your phone's Bluetooth list.
  4. Blue indicator slowly flashes to indicate successful pairing.
  5. If you want to disconnect it, you can turn off the BT of your phone or switch off the car. It will automatically reconnect to your phone next time after powering on this unit.
- Note: To connect a non-BT-enabled speaker, please plug the 3.5mm connector into the speaker while connecting the USB plug to a power adapter, then connect your phone to the receiver.

## 02 Connect to the Second Phone

1. Turn off the BT of the first phone (tablet or computer) after successful pairing.
  2. Connect to "BT DONGLE" in your second phone's BT list. It slowly flashes blue when the connection is completed.
  3. Turn on the BT of the first phone and it will automatically reconnect to the receiver.
- Note: It only plays music on one phone at a time.

## 03 If the Connection Fails

- If pairing is not established within about 5 minutes, you can:
- Keep the receiver within the transmission range of 10m/32ft.
  - Replug the USB connector of this unit.
  - Reset the BT on your phone.

## 04 Indicator

•	Power on: Blue indicator stays on for 1s
•	Pairing: Blue indicator flashes twice every 1S
•	The light is not on
•	Disconnected: Blue indicator flash twice every 1s

## Specifications

Model	US1
BT Version	5.3
Frequency Range	2400MHz-2483.5MHz
Max. RF Output Power	4 dBm (conducted)
Transmission Distance	10m Max (no blocking)
Codecs	SBC, AAC
Frequency Response	20 Hz-20 kHz
Output Level (Receiving)	740mVrms
SNR	>94 dB
THD+N	<0.05%
Sensitivity	-42±3dB

## Package Contents

- 1 × Car BT Audio Receiver
- 1 × User Manual

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Warning: changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment

#### Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
