## Product Overview:

- ① Power on/off
- ② Bluetooth Pairing/Re-pairing
- ③ Mode Switch (TX/RX/BYPASS)
- ④ Search and pair Bluetooth devices (TX mode)
- ⑤ MFB ( RX: Pause/ Volume+/-; TX: Up/Down/Confirm )
- ⑥ Type-C charging port
- ⑦ Output (RX mode)
- ⑧ Input (TX mode)

## Operating Instructions:

### Power on Bluetooth Transceiver BT17

Connect Bluetooth transceiver with a Type-C cable included.

You may use either a USB port on your TV or a wall plug (via a USB adapter that supports 5V)

Press and hold “①” for 3 seconds to power on the Bluetooth transceiver.

### Preparation before setup

1. If you're using it as a Bluetooth receiver (Bluetooth-enabling your speaker or sound system,) please refer to context of use 1;

2. If your TV is connected to your sound system (e.g. Sound Bar, AV receiver, external speaker) already, please use “bypass” feature and refer to context of use 2;
3. If you’re only using it with your TV, please refer to context of use 3.

### Context of Use 1: Using as a Bluetooth Receiver (RX mode)

1. Switch Bluetooth Transceiver to RX mode, “RX” will be shown on the screen;
2. Connect with speaker/ Soundbar-
  - With 3.5mm Audio Cable
  - With 3.5mm to RCA Audio Cable
  - With Optical Audio Cable
3. Turn on the Bluetooth on your phone or other device and search for “BT17”- tap to connect;
4. Once connected, the name of mobile phone or Bluetooth device will be shown on the screen;
5. Press the MFB ⑤ to pause the music or clockwise/anti-clockwise rotate to increase/decrease the volume.

#### Please note:

- a. **Bluetooth transceiver can connect two mobile phones/devices at the same time.**
- b. **The transceiver will automatically reconnect to the most recently connected two devices once the Bluetooth of that device has been switched ON.**
- c. **Press Bluetooth button to disconnect current paired devices.**

**Fig 1: Set up Bluetooth transceiver as Bluetooth Receiver**

## Context of Use 2: Connect Bluetooth transceiver to your TV (BYPASS mode)

“Bypass mode” allows you to use the Bluetooth transceiver and the Sound bar/Sound System at the same time.

1. Press “③” to switch the Bluetooth transceiver to bypass mode, “BYPASS MODE” will appear on the screen.
2. Connect TV and sound system referred to Fig 2.

**On the selection of four connection ways for reference:**

- Optical In to Optical Out
- Optical In to 3.5mm Aux Out
- 3.5mm Aux-In to Optical Out
- 3.5mm Aux-In to 3.5mm Aux Out

**Fig 2: Connect to Bluetooth Transceiver to Sound System (BYPASS mode)**

## Context of Use 3: Connect Bluetooth transceiver to your TV/audio source and Bluetooth headphones/speakers (TX mode)

1. Press “③” to switch Bluetooth transceiver to TX mode, “TX” will appear on the LCD screen
2. Power on Bluetooth headphone/ speaker and set them in pairing mode.
3. Keep them close to each other and wait. The name of searched Bluetooth headphone/speaker will appear on the screen.
4. Press the MFB to confirm and a voice prompt will let you know the connection is successful.

### ◆ How to connect the second headphone/speaker:

- 1) Enter the second headphone into pairing mode.
- 2) Press Bluetooth button “②” to search devices.
- 3) Press the MFB to confirm

◆ **How to choose the paired Bluetooth headphones/speakers:**

1. Press Bluetooth button "②" to disconnect current two paired devices.
2. The transceiver will automatically enter searching mode and all searched devices name will appear on the screen. (One page only can show four device name)
3. Clockwise/anti-clockwise rotate the MFB to choose the device you need then press to confirm.

◆ **How to automatically connect two Bluetooth headphones/speakers:**

Press ④ to disconnect current two paired devices and automatically enter searching and connecting model. Once connected, two devices name will appear on the screen.

**Please note:**

1. The transceiver will automatically reconnect to the recently connected two headphones/speakers once they are on pairing mode.
2. Please choose correct output before connecting. (refer to fig 3)
3. For TV optical out, please set audio format to PCM, Dolby/DTS are not supported.

**FCC Statement**

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To assure continued compliance, any changes or modifications not expressly approved by the party.

Responsible for compliance could void the user's authority to operate this equipment. (Example- use only shielded interface cables when connecting to computer or peripheral devices).

This equipment complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

**FCC Radiation Exposure Statement:**

The equipment complies with FCC Radiation exposure limits set forth for uncontrolled environment.
