2. Product boot: Long press the start switch "A" for 2 seconds, the work indicator "C" is green, indicating that the product is started.
3. During the use of the product, the work indicator "C" always shows green.
4. Use the original standard charging data cable, connect to the USB charging interface "B", and the product starts charging.
5. During the charging process, the charging indicator "D" shows red. Please stop using the machine when charging.
6. When the charging is complete, the charging indicator "D" is off.
7. Product shutdown: Long press the start switch "A" for 2 seconds, the work indicator "C" is off, indicating that the product is shut down.
4. Troubleshooting:
  1. Long press the start switch "A", the product does not turn on or work, please try charging.
  2. If the card machine is faulty, use the reset key to forcibly restart it. The original data will not be lost.
  3. For other faults, please go to the product purchase store or designated after-sales service outlet for identification and maintenance by professional maintenance personnel.

**FCC Warning:**

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

**Caution:** Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.
