# INTRODUCTION

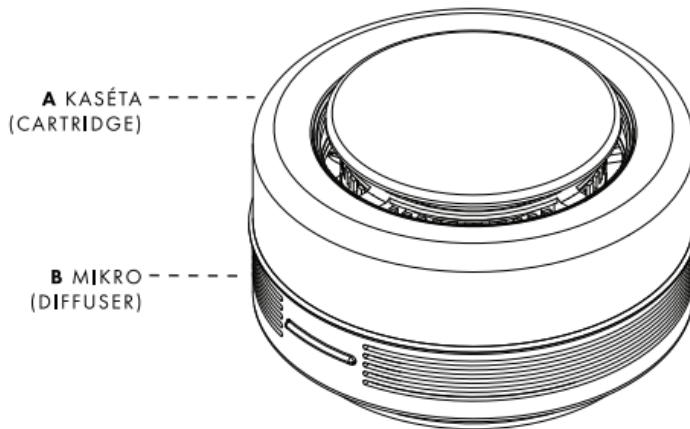

## • CONGRATULATIONS •

Mikro, your Arôme d'Art fragrance diffuser, provides a sensory experience like no other in the world. It is not merely a fragrance experience; it is an immersive sojourn.

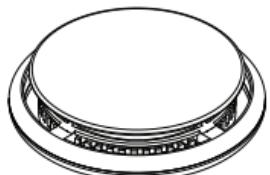

Choose a fragrance from a curated selection of distinctive aromas representing exotic locations, each scent derived from the spirit of mother nature. You can be transported to the aromatic lavender hills of the Provence countryside one moment and then, with a simple change of the Kaséta cartridge, experience the essence of white tea blossom that grows on the slopes of Jingmai Mountain. No matter which fragrance you choose, you are sure to experience the ADA Moment: an instance of unparalleled enjoyment.

# I · ASSEMBLAGE

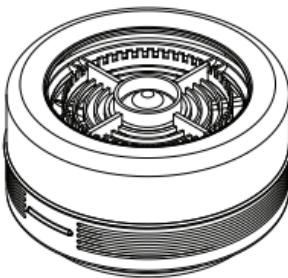

Years of testing and research have contributed to making this a superior product that enables intuitive ease of use.

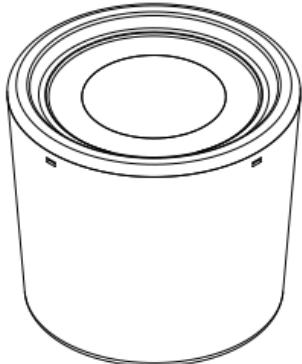

# ELEMENTS

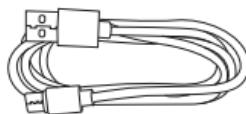

**A** KASÉTA (CARTRIDGE)

**B** MIKRO (DIFFUSER)

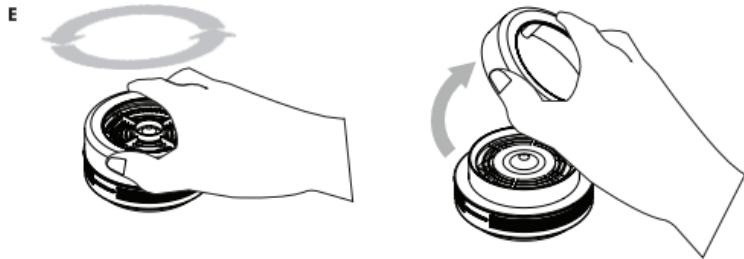

**C** CAR BASE

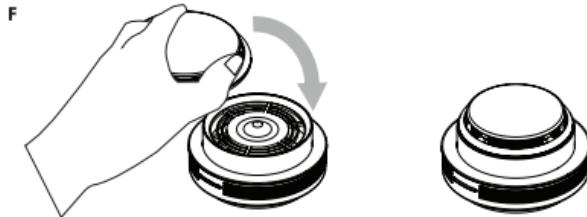

**D** CHARGING CORD

To attach a Kaséta to Mikro, twist the outer rim of the diffuser counterclockwise and remove the ring (E).

Place the Kaséta on top of the diffuser fan (F).

Once the Kaséta has been attached, put the outer ring of the diffuser back on (G).

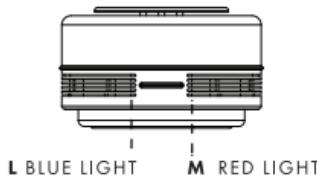

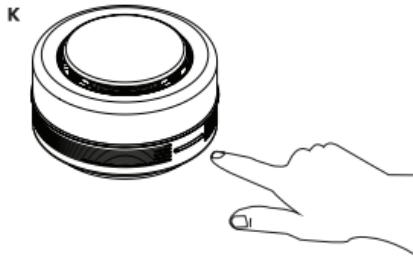

Place Mikro onto the magnetic top of the car base. The diffuser is now ready for use in your vehicle's cup holder (H).

## II • PRODUCT USE

Once you have assembled your set and it is fully charged, turn your diffuser on by pressing the power button on the rim of the diffuser (K). A blue light will appear on the bottom of the diffuser for 8 seconds when the power is on (L). When the diffuser is turned off, a red light will appear for 8 seconds (M). In small rooms, you may only need to leave the diffuser on for 15 minutes. In larger rooms, you may want to leave the diffuser on for up to 1 hour.

# MIKRO DETAILS AND USE

- Mikro is portable, allowing you to experience the bliss of your chosen fragrance anywhere you wish.
- Mikro can be charged through the USB port. When you connect the charging cord to the power port at the base of the device, a green light on the diffuser will indicate it is charging. The battery will be fully charged in approximately 3 hours. After reaching a full charge, the battery will last approximately 7 hours.

# KASÉTA DETAILS AND USE

- The Kaséta is a scientifically unique fragrance cartridge with patented, proprietary infusion technology; all-natural Essence Pearls© emit your chosen fragrance.
- Each Kaséta will last for up to 50 hours.
- The fragrance pouch for the Kaséta allows you to elongate the life of the cartridge. We strongly recommend storing the Kaséta inside the fragrance pouch when it is not in use.
  - The evaporation time of the Essence Pearls© in a partially-used Kaséta is approximately 1 month when it is kept outside of the pouch.

# CONNECTING MIKRO TO THE ARÔME D'ART APP

With the ADA Bluetooth app, you can easily turn your diffuser on and off as well as set a timer for it.

There is a product code that is located on the bottom of each diffuser; you will need this code to connect the diffuser to the app. Please ensure you complete device pairing with the app before you rename your diffuser in-app, as the code will disappear from the app once you have given the diffuser a new name.

### III · TECHNICAL FEATURES

#### MIKRO (DIFFUSER)

- Dimensions: 2-1/4" W x 1-13/16" H
- Weight: 4.4 oz.
- Power: input 110VAC; output 5V
- Rechargeable lithium battery, 3.7 V, 450 mAh capacity
- Recommended maximum temperature: 48°C / 120°F
- Approximate battery charging time: 3 hours
- Warranty: 1 year parts and labor from date of purchase
- Certifications: FCC (U.S.A., Canada), CAN ICES-3 (B) / NBM-3 (Canada)

### KASÉTA (CARTRIDGE)

- Dimensions: 2-1/2" W x 1/2" H
- Weight: 0.5 oz.

### CAR BASE

- Dimensions: 3-1/4" W x 2-7/8" H
- Weight: 3.9 oz.

## IV · SAFETY PRECAUTIONS

- Keep the Kaséta away from liquids and heat sources as well as out of the reach of children.
- Do not try to open the Kaséta.
- We recommend storing an unused Kaséta for no longer than 6 months.
- An ambient temperature of 20°C/68°F is ideal, and prolonged exposure of the Kaséta to temperatures over 40°C/104°F should be avoided.
- The diffuser complies with section 15 of the FCC Rules.
- Operation is subject to the following two conditions: (1) this device may not cause harmful interference and (2) this device must accept any interference received, including interference that may cause undesired operation.

- This Class B digital apparatus complies with Canadian ICES-3 (B) / NMB-3 (B).

This equipment has been tested and found to comply with the limits for a Class B digital device pursuant to part 15 of the FCC rules. These limits are designed to provide protection against radio frequency. The equipment may emit low-level radio frequency and, if not installed and used per the instructions, may cause low-level interference to radio reception. Changes or modifications not expressly approved by Arôme d'Art will void the user's warranty to operate the equipment.

# EPILOGUE

Having reached this point, you have an elevated opportunity to transform the mundane into the effervescent. Treasure each time you unsheathe a new Kaséta and experience Arôme d'Art to the fullest extent. Your sensory adventure is only just beginning.

## FCC STATEMENT

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

**NOTE:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in

accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

**WARNING:** Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

The device must not be co-located or operating in conjunction with any other antenna or transmitter.

**\* RF warning for Portable device:** The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

This device does not meet KDB680106 DO1 Clause 5b for all 6 conditions. This device is portable, not mobile and a PAG is required.

## IC STATEMENT

This device complies with RSS247 of Industry Canada. Cet appareil se conforme à RSS247 de Canada d'Industrie. This device complies with Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Appareils radio exempts de licence. Son fonctionnement est sujet aux deux conditions suivantes: (1) le dispositif ne doit pas produire de brouillage préjudiciable, et (2) ce dispositif doit

accepter tout brouillage recu, y compris un brouillage susceptible de provoquer un fonctionnement indesirable.

The device must not be co-located or operating in conjunction with any other antenna or transmitter.

**Radiation Exposure Statement:** The product comply with the Canada portable RF exposure limit set forth for an uncontrolled environment and are safe for intended operation as described in this manual.

**Déclaration d'exposition aux radiations:**

Le produit est conforme aux limites d'exposition pour les appareils portable RF pour les Etats-Unis et le Canada établies pour un environnement non contrôlé.
