Portable Universal Wireless Microphone Instruction Manual

I. Product Introduction

This wireless microphone is specially designed for small - scale meetings. It adopts advanced wireless transmission technology to ensure clear and stable sound, effectively avoiding signal interference and noise problems during meetings. The device is compact, lightweight, easy to carry and operate, providing a high - quality audio solution for meetings, trainings and other occasions.

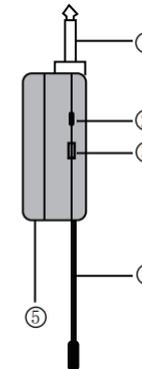

Handheld transmitter function:

- ①Net head: talk and sing here.
- ②Status display: display the working status and frequency
- ③Power switch: turn on and off the power.
- ④Battery cover: screw out the tailpipe to put two No.5
- ⑤batteriesTail cover: at the radio wave transmitting antenna, do not hold it when using.
- ⑥Charging: Charging interface.

- 1 -

Receiver function:

- ①Audio output: 6.35mm male.
- ②Power switch: push up to turn on, push down to turn off.
- ③Charging interface: charging with data cable.
- ④Receiving antenna: receiving the signal from the transmitter.
- ⑤Battery cover: 18650 replaceable battery inside, open the battery cover to replace directly.

II. Product Parameters

Item	Details
Frequency Range	2.4GHz
Modulation Method	GFSK
Transmitting Power	≤10dBm
Frequency Range	±50ppm
Sensitivity	- 85dBm
Signal - to - Noise Ratio	≥80dB
vDistortion	≤1%
Operating Temperature	- 10°C - 60°C

Item	Details
Storage Temperature	- 20°C - 70°C
Battery Type	Rechargeable lithium - ion battery
Battery Capacity	1200mAh
Charging Time	Approximately 2 hours
Working Time	Approximately 8 hours

- 3 -

III. Package Contents

Wireless microphone x2
Battery x 3
Receiver x 1
Charging cable x 1
Audio cable x1
Instruction manual x 1
Warranty card x 1

IV. Usage Instructions

(I) Charging

When charging, the charging indicator light will turn on. It will turn off when the charging is completed.

(II) Pairing

- 1.Turn on the power switches of the microphone and the receiver. At this time, the microphone and the receiver will automatically search for and pair with each other.
- 2.After successful pairing, the indicator lights on the receiver and the microphone will stay on. If the pairing fails, turn off the devices and turn them on again to try pairing.

(III) Connecting to Audio Devices

Use the audio cable to connect the audio output port of the receiver to the audio input port of audio devices such as speakers, power amplifiers or computers.

(IV) Using the Microphone

Turn on the power switch of the microphone and you can start using it. Adjust the volume knob of the audio device to an appropriate volume.

V. Precautions

- 1.Please make sure the device is fully charged before use to avoid performance issues caused by low battery.
- 2.Avoid using the device in strong magnetic or electric field environments to prevent signal interference.
- 3.Do not disassemble or modify the device by yourself, as it may cause damage to the device and void the warranty.
- 4.When not in use for a long time, turn off the device and store it in a dry and cool place. If the device malfunctions, please contact the after - sales service staff instead of repairing it by yourself.

- 4 -

Operation method:

Usage Method:

- 1.Insert the receiver into the microphone input of the speaker or power amplifier;
- 2.Turn on the receiver power switch;
- 3.Turn on the handset(install two No.5 batteries)

Matters Needing Attention.

1. Do not place the product in water or fire.
2. Do not use it in places with signal interference, such as hospitals, airports, etc.
3. Please don't split the product without authorization otherwise you will lose the warranty qualification.
4. If the product fails, please contact the dealer.

VI. Warranty Information

This product comes with a 1 - year free warranty service. From the date of purchase, if there are any product quality problems, you can contact us for repair or replacement.

Warning:

Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Statement:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
—Reorient or relocate the receiving antenna.
—Increase the separation between the equipment and receiver.
—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
—Consult the dealer or an experienced radio/TV technician for help.
