Product Specification

Product weight:620G	Current:≤1300MA
Input:DC5.0V/2A	Rated power:≤6W
Size:24.4x8x11.8CM	Tank capacity: 600ML
Raw material: ABS+PP	Spray volume:15-30ML/H
	Executive standard: GB 4706.1-2005 GB 4706.48-2009
Made in China	

Product Contents

AtomizerX1、Type–C cableX1、 ManualX1、 Spare cotton swabs 6

Note

- When using for the first time, please put the absorbent cotton swab into the right amount of water, so that it completely absorbs water, in the use of this will achieve the best results. If a new machine or a long-term unused machine has no spray for about 3 minutes during use, that is a normal phenomenon, this process is used for the absorption of cotton swabs, when the cotton swabs absorb water, it will soon produce atomization effect, and the machine begins to work normally.
- Please use the included Type-C 2A power cord. If an alternative power cable is used, yes Note that the current specification is 2A, otherwise it will affect the atomization effect.
- During the operation, the sound in the water tank is the atomization sound, which is a normal phenomenon.

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.
