

## INSTALLATION INSTRUCTIONS

Figure ①

### Installation Method 1:

(as shown in Figure 1) Paste the magic tape on the back of the boxing target and the flat wall, align the magic tape, and install the boxing target on the target position. Note that the charging port should not be more than 1.5 meters away from the socket.

Figure ②

### Installation Method 2:

(as shown in Figure 2) Put the back suction cup into the bayonet position and press it tightly. Press the boxing target hard to adsorb it on the target position until the air in the middle of the suction cup is drained and let go. Please select the wall to attach to the tile. Note that the charging port should not be more than 1.5 meters away from the socket.

**Tips:** Dip a little water into the suction cup when installing it, it will make the suction cup more tightly! If you do not use it for a long time, remove it in time to avoid falling off and being hurt.

4. The battery should be charged in time;
5. Stop using immediately if you feel uncomfortable during use;
6. It is recommended to wear boxing gloves when using;
7. It is prohibited to disassembling the product.

## PRODUCT PRESENTATION

Boxing is a combat sport in which two boxers strike each other with gloved fists. It is both an amateur activity and a professional sport.

In boxing training, boxing targets are usually used to train the speed and strength of the players, because the opponent's gap is fleeting during boxing matches, compared with strength training, it is more important to train the players' offensive and defensive response ability.

The product trains people's reaction ability through electronic control of light guidance, and determines whether it is accurately hit on the target point through sound prompts, so as to effectively exercise people's overall coordination and reaction ability.

## OPERATING INSTRUCTIONS

Tips: Bluetooth name (quanji)

- SPEED BUTTON:**  
Tap to switch three speeds
- SWITCH BUTTON:**  
Long press the switch, short press pause
- AUDIO BUTTON:**  
Long press to mute, short press to switch three volumes
- SPEED BUTTON:**  
Long press to disconnect bluetooth, short press to switch three speeds
- SWITCH BUTTON:**  
Long press the switch, short press pause
- AUDIO BUTTON:**  
Long press to connect bluetooth, short press to switch three volumes

## CHARGING INSTRUCTIONS

Use a USB charger to connect cables for charging  
BATTERY CAPACITY: 500mA

#### FCC Statement

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation. FCC

#### Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be located or operating in conjunction with any other antenna or transmitter.

#### RF warning for Portable device:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

#### ISED RF exposure statement:

This equipment complies with ISED radiation exposure limits set forth for an uncontrolled environment. The device has been evaluated to meet general RF exposure requirement.

Le matériel est conforme aux limites de dose d'exposition aux rayonnements énoncés pour un autre environnement. Ce dispositif a été évalué à satisfaire l'exigence générale de l'exposition aux rf.

Note : This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are

designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
