After the headset is turned on, the phone can search for the Bluetooth name of the headset and connect to it normally. 2. During the charging of the headset, the headset is turned off and will disconnect from the mobile phone; 3. After the headset is turned on, if the phone does not find the headset, you can turn off the Bluetooth of the phone and then turn on the Bluetooth of the phone again, the phone will search again. 3. If the device is not connected for 5 minutes, the earphone will automatically shut down. 4. In order to avoid misoperation, the headset can be turned off only after 3 seconds. 5. When not in use for a long time, please charge the headset once a month regularly. When it is not used for a long time, it will cause the earphone battery to be over-discharged and no power, so you need to plug in the charger to charge the earphone. 	<p>FCC Caution:</p> <p>Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.</p> <p>This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:</p> <ol style="list-style-type: none"> (1) This device may not cause harmful interference. (2) this device must accept any interference received, including interference that may cause undesired operation. <p>NOTE:</p> <p>This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.</p> <p>These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.</p> <p>However, there is no guarantee that interference will not occur in a particular installation.</p> <p>If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:</p> <ul style="list-style-type: none"> -- Reorient or relocate the receiving antenna. -- Increase the separation between the equipment and receiver. -- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. -- Consult the dealer or an experienced radio/TV technician for help. <p>FCC Radiation Exposure Statement :</p> <p>The equipment complies with FCC Radiation exposure limit set forth for uncontrolled environment. The device shall be operated and installed without restriction.</p>
