Help FAQ

Q1: Why is the camera offline?

1. It may caused by router WIFI signal interference or network reasons. Power off and restart the optical modem, router or camera.
2. The camera maybe too far away from the WIFI router, try to get the camera next to the WIFI router.
3. Whether the WIFI password has been changed, try to reset the camera and try pairing again.

Q2: Why is the pairing network unsuccessful?

1. Please make sure that the distance among the camera, the router and the mobile phone should be close enough when configuring the network.
2. Please note: 2.4G WiFi is supported, 5G WiFi signal network is not supported.
3. Please check whether the WIFI name and password are correct.
4. Please long press the reset button for 5 seconds and try again after restoring the camera to the factory settings.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or

more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Important: Change or modifications not expressly approved by the manufacturer responsible for compliance could void the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
