

# Bluetooth Electric Cello - Installation Instructions (AMY02)

Before assembling, check the "Accessories List" in the accessory package and instruction manual to confirm that the accessories are complete! Please strictly follow the instructions in the instruction manual to assemble. Do not disassemble all the parts at once to avoid confusion!! Do not apply glue to a large area, just apply a small amount to a few spots on a large area; if the parts are delicate, please remove them carefully.

## ⚠ safety warning

- To ensure your safety while having fun, please read the instructions before assembling.
- This product is suitable for people over 14 years old. Children must assemble it under the guidance of their parents.
- The material of this product is wooden high-density board, which is hard in texture. Please be careful not to be punctured by the corners of the parts.

## ⚠ Precautions

- The tightness of the connector of this product is determined by the processing technology and the temperature and humidity of the environment. If the installation is too tight, you need to use a nail file to polish the interface before assembly; if the installation is too loose, you need to add glue to fix it after assembly.

## 🛠 Maintenance and care

- Do not place this product near a heat source or immerse it in water. And use a clean, soft cloth to clean this product.
- Do not use chemical cleaners such as window cleaners, sprays, solvents, alcohol, ammonia, abrasives, etc. to clean the product.

## ❓ common problem:

problem	reason	solution
Sluttering in rotating parts	1. There is a lot of friction between wooden boards. 2. Node burr is too long.	1. Apply the wax block evenly to the parts. 2. Use sandpaper to remove burrs and ensure each part fits in place

## 🔧 Auxiliary tools (code: E7):

**Gears (special attention):**  
If the burrs on the red surface are not removed, it will affect the gear rotation.

Note: Use a knife to remove burrs

Note: Take out the wax block and paint the red area

### **FCC Warning**

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

### **Radiation Exposure Statement**

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
