

## User Manual Front

### Welcome to your Trvlr Tag Pro

Let us help you set up your new charger quickly with this guide.

**What's Included**

- Trvlr Tag Pro • Locking Key

### Getting Started

1. Use the Locking Key to **unlock** the screw on the tag.
2. **Attach** the braided wire connector to your bag and using the locking key, **lock securely**.
3. To **recharge the tag**, place the wireless charging area on the tag face down on any Qi wireless charging pad to recharge.

### Pairing Your Trvlr Tag Pro

1. Open the '**Find My**' app on your iPhone, navigate to the **Items** tab and **press the + icon**.
2. Next, press the power button on the Trvlr Tag Pro to power it on, then press a hold for 5 seconds to **activate Find My pairing mode**.
3. In the **Find My** App, select **Add Other Item** to initiate a search for the Trvlr Tag Pro.
4. Once your iPhone discovers the Trvlr Tag Pro, tap **Connect**. Then follow the on-screen steps to name and register the Trvlr Tag Pro to your Apple ID.

### Warranty & Safety

All SnapWireless products are protected and covered against product defects in materials, workmanship and faults for a period of one (1) years from the date of original purchase, when purchased through our online store or an authorised reseller. Changes or modifications not expressly approved could cause damage to the product and may void the user warranty.

### Technical Specifications

Capacity: 160mAh  
Wireless Input: 5V= 0.5A (2.5W)

### FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

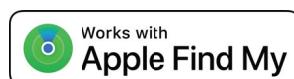

**Note:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:  
• Reorient or relocate the receiving antenna.  
• Increase the separation between the equipment and receiver.  
• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.  
• Consult the dealer or an experienced radio/TV technician for help.

**Note:** The Granite is not responsible for any changes or modifications not expressly approved by the party responsible for compliance, such modifications could void the user's authority to operate the equipment.

The device has been evaluated to meet general RF exposure requirement. To maintain compliance with FCC's RF exposure guidelines, the distance must be at least 20 cm between the reader and your body, and fully supported by the operating and installation.

The Apple Find My network provides an easy, secure way to locate compatible personal items using the Find My app on your iPhone, iPad, Mac, or the Find Items app on Apple Watch. To use the Apple Find My app to locate this item, the latest version of iOS, iPadOS, or macOS is recommended. The Find Items app on Apple Watch requires the latest version of watchOS. Use of other works with Apple badge means that a badge has been designed to work specifically with the technology identified in the badge and has been certified by the product manufacturer to meet Apple Find My network product specifications and requirements. Apple is not responsible for the operation of this device or use of this product or its compliance with safety and regulatory standards.
