

## Antenna Specification

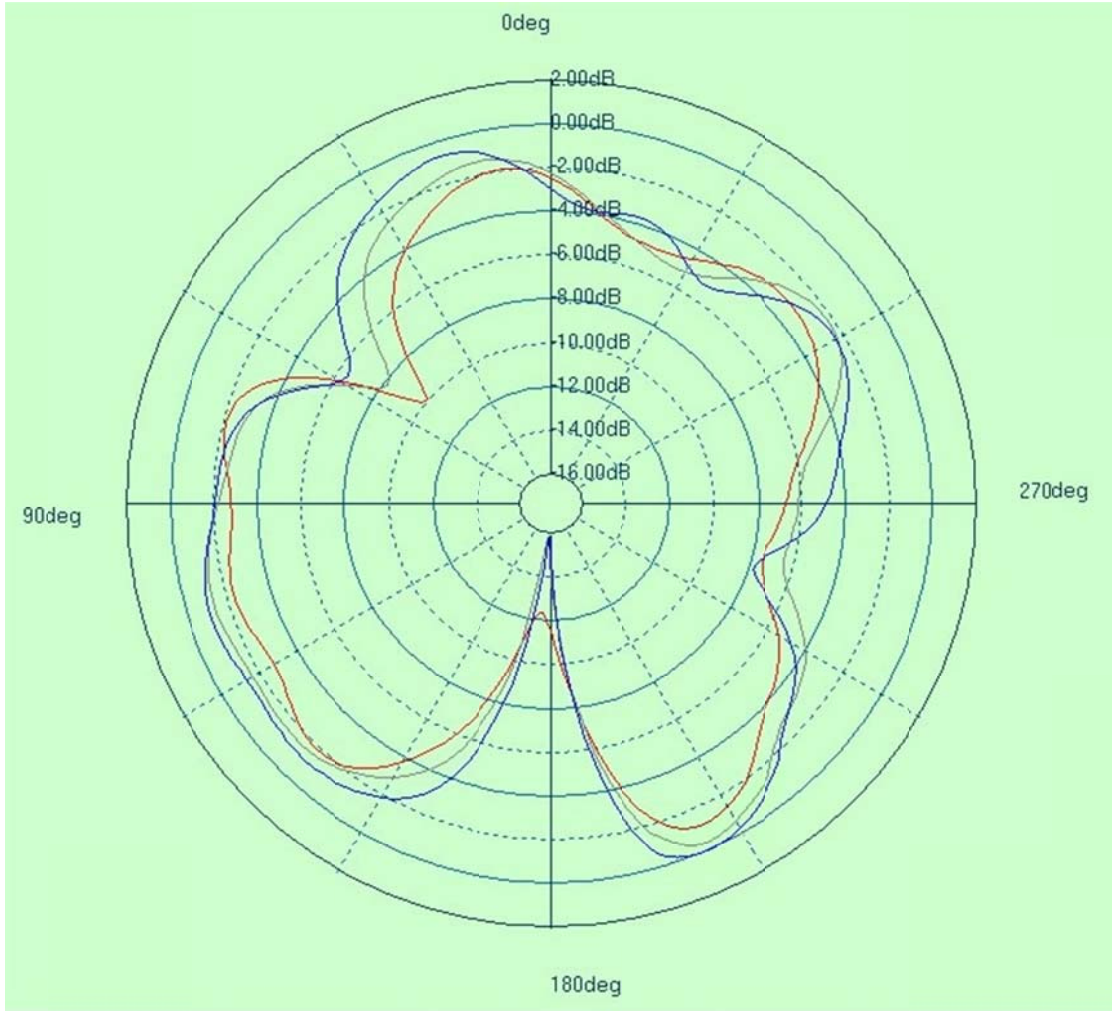

|                |                                                                                                                                                           |          |         |
|----------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------|----------|---------|
| Model Name     | 2.4G FHSS ANT                                                                                                                                             |          |         |
| Frequency      | 2400MHz                                                                                                                                                   | 2450MHz  | 2500MHz |
| Gain (dBi)     | -1.02dBi                                                                                                                                                  | -0.45dBi | 0 dBi   |
| MAX. Gain      | 0 dBi                                                                                                                                                     |          |         |
| Impedance      | 50 $\Omega$                                                                                                                                               |          |         |
| Antenna Length | 23.5mm                                                                                                                                                    |          |         |
| Manufacturer   | Shenzhen City ZhanTuan Technology Co., LTD<br>Room 506, Building C, Jinhua Building, Xinniu Community,<br>Minzhi Street, Longhua District, Shenzhen City. |          |         |
