

Product parameters

Wireless version:V5.4

Working range:barrier-free 10 meters

Wireless frequency:2.402-2.480GHz

Charge and discharge cycle:≥300 times

Charging box capacity:300mAh

Charging input:Dc3.7V-300mA

Charging time:2 hours

Talk time:about 3 hours(80%volume)

Play music:about 4 hours(80%volume)

Headphone built-in battery:lithium battery 3.7V, 25mAh

Note:The specifications and parameters of this product are all laboratory test data, which will be different in different environments,the product is constantly being upgraded and improved,and the specific functions and product pictures may be slightly different from the actual product,please refer to the actual product.

Touch method

Power on:Open the charging box,remove the headphones,and automatically turn on the phone

Power off:Put the headphones into the charging box

Pairing mode:The headphones automatically enter pairing mode when turned on

Pause/Play:Click on the left or right earphone

Answer a call:Click on the left or right earphone

Hang up the phone:Double click on the left or right earphone

Next song:Three clicks on the right earphone

Previous song:Three clicks on the left earphone

Volume reduction:Double click on the left earphone

Volume increase:Double click on the right earphone

Voice assistant:Long press and hold the left or right earphone for 2 seconds

Call rejection:Long press the left or right earphone for 2 seconds

The power delivered by the charger must be between min [1W Watts required by the radio equipment,and max[15W]Watts in order to achieve the maximum charging speed.

Non-USB PD Fast Charging

FCC WARNING

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause hamful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Note: The Grantee is not responsible for any changes or modifications not expressly approved by the party responsible for compliance. such modifications could void the user's authority to operate the equipment.

The device has been evaluated to meet general RF exposure requirement. This equipment complies with FCC's RF radiation exposure limits set forth for an uncontrolled environment. This device and its antenna(s) must not be co-located or conjunction with any other antenna or transmitter.
