

WIRELESS MULTIFUNCTIONAL
LED DESK LAMP
INSTRUCTIONS

W015(HJ-03)

To use safely, be sure to read the instruction manual carefully and use it correctly.

Declaration: The manufacturer reserves the right to change this manual at any time without prior notice. If there are any typographical errors or defects in this manual or specifications, they will be corrected or added in the next edition.

Safety Precautions

Before use, please read this "Safety Notice" carefully and use it correctly. The precautions indicated here should be used to ensure complete accuracy in usage and prevent injury or damage to others. Your precautions are divided into "Warnings" and "Cautions" to clearly outline the nature of potential dangers and the urgency of damage that may occur during installation. Both are important safety-related contents, so please follow them diligently. After reading, please store it in a place where it can be referenced at any time.

Content that may result in death or serious injury to individuals
Assuming a situation where only the possibility of injury to people and material damage occurs.

The symbol on the left indicates an act of "enforcement." This is something you must comply with.

The symbols in the left diagram indicate actions that are "prohibited." Please do not engage in the prohibited activities.

If you discover a power generation anomaly while charging, please immediately unplug the charging cable and cease charging. Continuing to use this power source may result in smoke, fire, or explosion. If you notice any of these symptoms, please stop using it.

Safety Precautions

- Please check for any abnormalities in all parts that may affect the charging cable, installation state, or other operations.
- If you feel that the condition of this product is not good or if you notice any abnormalities while in use, immediately turn off the switch and stop using it.
- When not in use, store it in a place out of reach of children.

- Do not disassemble, repair, or modify the product.
- Do not use the product for any purpose other than its intended use.
- Do not use in humid places.
- Do not touch the body or charging cable with wet hands.
- If there is moisture or dirt on the plug of the charging cable, do not charge.
- Do not charge in places where flammable gases, liquids, or powders are present.
- Do not use or store near children or pets, and ensure that children do not use it.
- Do not touch the liquid that has leaked from the battery inside the unit.
- An input/output exceeding 5V may cause product or charger failure. Please unplug the USB if it is not used for a long time.

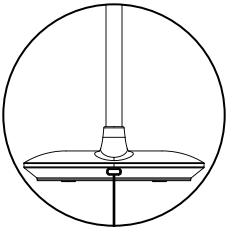

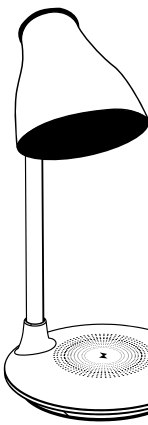

Safety Precautions

- Do not throw the device into fire. Also, do not heat it. There is a risk of fire or explosion due to the built-in battery.
- Do not apply shock to the device by nailing, cutting, crushing, throwing, dropping, or hitting it with hard objects.
- Do not charge, store, or place the device near fire or in high-temperature locations (such as on hot days).
- Do not submerge the device in water.
- Do not charge if the surrounding temperature is below 10 degrees Celsius or above 40 degrees Celsius.
- Do not cover the device or charging cable with cloth or similar materials while charging. There is a risk of bursting or fire.
- Do not use if there are any damages, cracks, or deformities in the product .

Please be sure to comply with the warnings and contents indicated in this instruction manual. The manufacturer and seller are not responsible for any damages arising from failing to meet the indicated warnings or contents.

Type-C charging cable

Adapter

User Instructions

Smartphone wireless charging panel

- Touch on/off light mode

1. Touch induction power on/off
2. Touch sensitive, 3 levels of light adjustable

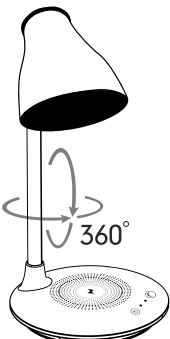

- LED Illumination Lights

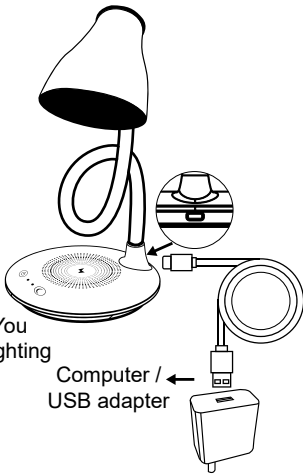

1. Touch-sensing power ON/OFF
2. Click to turn on
3. Touch-sensing two-stage dimming
4. Long press to turn off

- Wireless Charging Stand for Smartphones
- It lights up and turns off with a double click.
- By placing your smartphone on the wireless charging panel and tapping the [Relax Mode], a colorful light that changes to five colors will turn on.

User Instructions

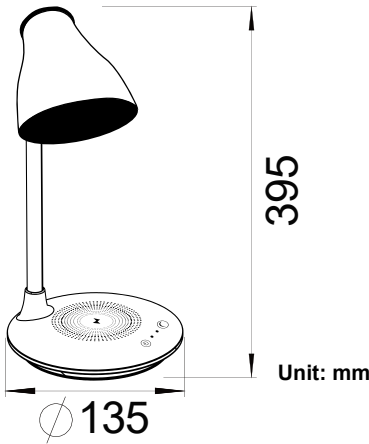

360° Adjustable HoseYou can freely adjust the lighting effects.

Computer / USB adapter

When storing for a long time, please charge it every three months to prevent static electricity. Store it in a place out of reach of children and those who do not know how to operate it. Do not store it in areas with moisture or high humidity.

Product size

395

Unit: mm

135

Fan Parameters:
Adapter Type-c charging cable
Output power: 4W
Battery capacity: 3600mAh, (1800mAh*2)
Battery voltage: 3.7V
Input voltage/current: DC 5V/2A

Warning:

Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Statement:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off

and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The equipment complies with FCC Radiation exposure limit set forth for uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
