

MOTOROLA

FCC ID: ABZ89FC5810B

Date: June 12, 2013

Subject: Frequency Range Attestation for 800 MHz Transmitter, FCC ID ABZ89FC5810B

In accordance with requirements pertaining to Publication KDB 634817, Frequency Range Listings for Certification Grants, Motorola hereby submits attestation that the transmitter described in this submission includes continuous frequencies that are not licensable in rule part 90.

The device complies with CFR47, Part 90.203, in that the operator cannot directly program the transit frequencies using the normally accessible external controls. Please note that Licensed End Users do not have access to any external controls that will allow them to program the equipment. Equipment programming is the responsibility of Motorola approved Service Agents.

In addition to Part 90 usage, this equipment is utilized at the extended range 940-941 MHz in countries outside of the United States in systems such as Public Safety agencies, police, fire, and emergency medical, etc.

It is understood that a grant note code may be added to the grant which indicates this required operation.

Please contact me if you require any additional information.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Ken Weiss'.
