Re: Class II Permissive Change for ABZ89FC5817 to Verify H-Mask for Digital Emission
800 MHz MTR3000 Base Radio Transmitter

This memo is in regards to a Motorola Solutions type approved transmitter, equipment type ABZ89FC5817. ABZ89FC5817 was originally granted FCC type approval on August 27, 2010. A permissive change was granted to add emission designators on September 8, 2011.

A copy of the current grant is included on the following page.

There is no change being requested to the grant per this action. The purpose of this permissive change is to definitively show that the 12.5 kHz digital emissions generated by this transmitter do in fact comply to 90.210 (h), the "H-mask", for NPSPAC applications in addition to 90.210 (d), the "D-mask".

Occupied bandwidth data is included in this package to show "H-mask" compliance for the emission designators, as follows:

7K60FXE, 7K60FXE, 7K60F7E, 7K60F7D, 7K60F7W for "MotoTRBO" 2-Slot TDMA Digital Modulation

No schematics or photos are included in this package. This proposed change maintains the existing specifications of the equipment. The equipment will be completely compatible and interchangeable with the existing equipment currently shipped under equipment type ABZ89FC5817, and the form, fit, and function of the base radio is identical to the equipment that is currently in production.

For the filing package currently on record with the FCC, all exhibits are considered current and valid. The exhibits shown in the 'List of Exhibits' herein are supplemental to the information currently on record.

Please contact me if you need further information or have any issues or questions.
Regards,

Ken Weiss
Motorola Solutions

GRANT OF EQUIPMENT
AUTHORIZATION

TCB

Certification

Issued Under the Authority of the
Federal Communications Commission

By:

Elite Electronic Engineering, Inc.
1516 Centre Circle
Downers Grove, IL 60515

Date of Grant: 09/08/2011

Application Dated: 09/08/2011

Motorola Solutions, Inc.
1301 East Algonquin Road
Schaumburg, IL 60196

Attention: Ken Weiss, Senior Staff Engineer

NOT TRANSFERABLE

EQUIPMENT AUTHORIZATION is hereby issued to the named GRANTEE, and is
VALID ONLY for the equipment identified hereon for use under the Commission's
Rules and Regulations listed below.

FCC IDENTIFIER: ABZ89FC5817

Name of Grantee: Motorola Solutions, Inc.

Equipment Class: PCS Licensed Transmitter

Notes: Non Broadcast Transmitter

Grant Notes	FCC Rule Parts	Frequency Range (MHz)	Output Watts	Frequency Tolerance	Emission Designator

Power out is conducted. The antenna(s) used for this transmitter must be fixed-mounted on outdoor permanent structures. RF exposure compliance is addressed at the time of licensing, as required by the responsible FCC Bureau(s), including antenna co-location requirements of Section 1.1307(b) (3). Permissive change to add TDMA emission designators.

BC: The output power is continuously variable from the value listed in this entry to 5%-10% of the value listed.
