Subject: APPLICATION FOR CLASS 2 PERMISSIVE CHANGE TO FCC AUTHORIZED Transceiver with
FCCID: **ABZ99FT3082**

A permissive change is requested for this VHF 45 Watt Mobile Radio which is marketed in the United States and elsewhere.

A. DESCRIPTION OF PRODUCT CHANGES:

Motorola wishes to include Rules Part 80 for this radio. An updated User Manual with Maritime instructions is included with this submission. A addendum report is included that examines conducted spurious emission at the Part 80 frequencies.

B. PERFORMANCE DIFFERENCES:

No changes have been made to this transceiver.

C. CONCLUSION:

This radio continues to meet all FCC emissions requirements for which authorization was granted. The addition of Part 80 Rules to the original Part 90 rules originally reported, thus this change requires a Class-2 Permissive Change.

Sincerely,

/s/ Larry D. Larsen(signed)
