Subject: Application for Extended Frequencies for Transmitter with FCC ID:
ABZ99FT3083

Dear Sir or Madam:

Motorola Inc., 1313 East Algonquin Road, Schaumburg, Illinois, herein requests grant for extended frequencies within the range of FCC Rule Part 90 for the 25 Watt VHF transceiver identified by FCC ID:ABZ99FT3083. The transceiver is designed to operate in the 136 to 174 MHz band and we request the grant for contiguous range of 136-174 MHz.

This repeater will also be marketed to elements of the US Federal government (NTIA), exported to Canada and other international markets.

For the United States market, the radios will be programmed on authorized frequencies that are licensed by the FCC.

This repeater complies with CFR Title 47, Section 90.203, in that the operator cannot directly program the transmit frequencies using only the normally accessible external controls of the unit. The transmitter programming is the responsibility of authorized dealers and service agents.

Please contact me if I can be of assistance.

Sincerely,

*/s/***Larry D. Larsen (signed)**
