Subject: APPLICATION FOR CLASS 2 PERMISSIVE CHANGE TO FCC AUTHORIZED Repeater with
FCCID: **ABZ99FT4026**

A permissive change is requested for this VHF 25 Watt Repeater which is marketed in the United States and elsewhere.

A. DESCRIPTION OF PRODUCT CHANGES:

Motorola wishes to include Rules Part 22 and 74 for this radio. There are no hardware or software changes made to enable this change.

B. PERFORMANCE DIFFERENCES:

No changes have been made to this transceiver.

C. CONCLUSION:

This radio continues to meet all FCC emissions requirements for which authorization was granted. The addition of Part 22 and 74 Rules to the Current Part 90 rules originally reported, thus this change requires a Class-2 Permissive Change.

Sincerely,

A handwritten signature in blue ink that reads 'Larry D. Larsen'.
