Subject: Application for Extended Frequencies for Transmitter with FCC ID:
ABZ99FT4083

Dear Sir or Madam:

Motorola Inc., 1301 East Algonquin Road, Schaumburg, Illinois, herein requests grant for extended frequencies within the range of FCC Rule Part 90 for the 48 Watt UHF transmitter identified by FCC ID:ABZ99FT4083. The repeater is designed to operate in the 450 to 512 MHz band and we request the grant for contiguous range of 450-512 MHz.

This radio will also be marketed to elements of the US Federal government (NTIA), exported to Canada and other international markets.

For the United States market, the radios will be programed on authorized frequencies that are licensed by the FCC.

This repeaterter complies with CFR Title 47, Section 90.203, in that the operator cannot directly program the transmit frequencies using only the normally accessible external controls of the unit. The transmitter programming is the responsibility of authorized dealers and service agents.

Please contact me if I can be of assistance.

Sincerely,

/s/ Larry D. Larsen (signed)

Larry D. Larsen
